LBJ Peace Drive Hinted Near Climax

SAIGON (AP) — American fighter-bombers kept up their heavy raids across North Vietnam's southern panhandle today amid growing speculation that President Johnson's peace offensive is approaching some sort of climax.

Unconfirmed reports circulated that U.S. Ambassador Ellsworth Bunker and President Nguyen Van Thieu were preparing a joint statement in which the South Vietnamese government would at least accept a halt in the bombing of North Vietnam.

Despite the reports and speculation, senior U.S. officers said they had no indication that an immediate bombing halt might be in the works. One knowledgeable military source said:

"As far as we're concerned, we're planning air strikes way up ahead, but that doesn't say we can't cut out the bombing tomorrow. They were sure charging out today. It's business as usual."

While U.S. jets were striking North Vietnamese supply routes, Thieu told newsmen in Saigon that Hanoi so far has proved unbending in its response to President Johnson's new peace offensive. He said North Vietnam continues to demand an unconditional cessation of the bombing and at the same time fails to show good will or signs of a de-escalation of the war.

"No good will, no bombing halt," said Thieu.

North Vietnam's Communist party newspaper, Nhan Dan, implied the Johnson administration is encouraging reports of a breakthrough toward peace to help Vice President Hubert H. Humphrey win the presidency. Nhan Dan said the "U.S. propaganda campaign about a so-called 'breakthrough' in Paris will end in a flop."

U.S. pilots flew 134 missions against North Vietnam Tuesday, making their way through "steadily worsening weather" over the panhandle. But the number of missions was only five less than the total of 139 Monday, and that was the most in nearly a month.

The pilots reported damaging or destroying 16 trucks and three bridges, but "much of the bomb damage assessment was hampered by morning ground fog and later cloud cover," the U.S. Command said. It added that 35 fires and 23 secondary explosions were also reported indicating hits on fuel and ammunition stores.

Pilots from the carriers Intrepid and America reported leaving three oil storage areas in flames south of Vinh.

Speculation On Upgrade

Abrams Pays Secret Call On White House

WASHINGTON (AP) — Gen. Creighton W. Abrams Jr., U.S. commander in Vietnam, has paid a supersecret call on the White House in the midst of stepped efforts to de-escalate the war. But a White House spokesman says the visit does not mean there has been breakthrough toward peace.

News Secretary George Christian would not go beyond saying that Abrams's session with President Johnson, which wasn't announced until after the general had left to return to Vietnam Tuesday, was a "general military review."

However, sources in Saigon said Abrams had been ordered to Washington to give the President his views on what effect a bombing halt of North Vietnam would have on the war situation.

Abrams' visit, his first known return to the United States since just before he took command last March, sparked immediate speculation of some new development in Johnson's current peace drive.

Driver Leaps Clear

Truck Damages Bridge

This six - foot section of heavy concrete railing on the Williamsport Bridge on Route 7 was torn out early today when rammed by a steel - laden tractor - trailer after the driver leaped out in the face of an imminent collision with an oncoming car.

Ray D. Morrison, 26, of Steubenville, the trucker, escaped injury in the collision. His rig, loaded with 40,000 pounds of steel pipe destined for Michigan, ended up hanging precariously over the edge of the span.

Morrison told the Ohio Highway Patrol he was driving north on Route 7 at 2:15 a. m. when he saw an oncoming vehicle in the middle of the highway. He said he swerved his rig to the right to avoid a collision, then saw the span and jumped from the cab to avoid injury.

The same bridge was the scene of a three-way traffic collision five years ago that claimed the lives of eight persons. The concrete railing on the opposite side of the span still shows damage from that collision.

In another accident on Route 7 about two-tenths of a mile east of Wellsville at 3:40 p.m. Tuesday, Robert M. Lambright, 54, of 201 Campground Rd., Wellsville, stopped his 1960 sedan waiting for traffic to clear so he could make a left turn onto Kountz Ave. and his auto was struck in the rear by a 1968 sedan driven by Howard P. Dygert of Worcester, Mass., the patrol said.

Dygert was in the passing lane and was unable to stop his vehicle before it struck the Lambright auto. He was cited for failure to stop in an assured clear distance.

Mary Sue Bziak, 23, of Cokeburg, Pa. was cited for failure to yield the right of way as the result of a two-car accident at 5 p.m. Tuesday at the intersection of Route 7 and 30. The auto she was driving struck the front of the 1968 sedan operated by Mary E. Thompson, 42, of RD 2, the patrol said. The Bziak woman did not stop for the stop sign at the 4-way stop.

Cosmonaut Ends 4-Day Earth Orbit

Soft Landing Made In Russia, With No Records Apparently

MOSCOW (AP) — Cosmonaut Georgy Beregovoy and the Soviet space ship Soyuz 3 returned to earth today after nearly four days in orbit during which they set no records and apparently scored no breakthroughs for the Soviet space program.

Tass said the spaceship made a soft landing where it was supposed to in the Soviet Union but did not give the exact location.

Beregovoy "feels well," said the Soviet news agency, and was met by "friends and correspondents in the area where he landed."

"Cosmonaut Georgy Beregovoy successfully completed the program of scientific and technical research," Tass said.

The 47-year-old cosmonaut's flight was the first manned flight in 18 months for the Soviet Union, but it set no records and no technical breakthrough was announced.

Beregovoy was launched into space last Saturday morning and began a tandem flight around the earth in the wake of the unmanned spacecraft Soyuz 2, which had been launched the day before.

Before Soyuz 2 was brought down for a soft landing on Monday, Beregovoy made two approaches to the unmanned craft, but if he tried to link up, this was not announced.

A Soviet scientist writing in Pravda Monday said the purpose of Beregovoy's flight was to develop docking systems essential to the Soviet program of eventually constructing huge orbiting platforms from which rockets would be launched to the moon and planets.

'Inefficiency' Seen In 4 Offices; Fund Problems Charged

LISBON — Sharp political exchanges between Columbiana County's Democratic and Republican chairmen erupted today as the campaign for various county offices moved closer to Tuesday's election.

Ford McQuilkin of Homeworth, county GOP leader, charged four Democrat officeholders — Auditor Kenneth Bell, Recorder John Wargo, Engineer John Ursu and Clerk of Courts Carl Stacey — with "inefficiency."

Don R. Gosney, county Democratic chairman, quickly denied the allegations and called the GOP - controlled commissioners' office responsible for the county's "poor financial condition." He hinted the county election operation next week was jeopardized due to inadequate funds.

'Relief' Seen For East End Zoning Cases

Planning Coordinator Don Eckert said today a detailed review of the City Code has revealed a section that offers "relief" for up to a year for business people in East End plagued with zoning problems because most of the Pennsylvania Ave. is restricted to residential use.

East End residents, particularly business operators and owners of commercial property, have sought rezoning from both Council and the City Planning Commission. The Planning Commission has an investigation under way.

Eckert said Solicitor J. Michael Kapp and George Steele, chairman of the planning commission and also an attorney, made a detailed study of the code Tuesday and discovered a clause that will permit operation of so-called "non-conforming" businesses for up to a year while a final solution is sought for the problem.

He outlined this procedure: The property - owner could apply for a zoning permit, which would be denied. Then the applicant could file an appeal with

Deepest Well In Ohio

Area Firm Locates Huge Gas Source Near Lisbon

A well "brought in" by an East Liverpool company is expected to produce some two million cubic feet of natural gas daily.

The announcement was made today by William Blair, president of the Tri - State Producing Co.

The well, the deepest yet drilled in Ohio, is located in Center Township in Columbiana County on the Donald Sell property along Route 172, west of Lisbon.

Drilling has reached a depth of 8,958 feet, Blair said. He pointed out it takes 125 to 150 cubic feet of gas to operate an average - size home for a year.

Blair said the operation could become "the biggest industry ever seen in Columbiana County" and pointed to the probable tax yield for the county.

In reviewing the drilling activities, Blair said they drilled to 6,000 feet and found "an excellent supply of gas and oil." A Clinton sand formation of 100 feet provides a good commercial pay drilling area, he continued, and he explained that it would be erroneous to refer to the find as a "pocket," pointing out that gas is found in the porous sand.

The pressure helps determine the life of a well, he continued. Pressures at the 8,958-foot level are about 4,000 pounds. "The well should have a life span of from 10 to 20 years at least," he added.

Blair said the East Ohio Gas Co. has agreed to purchase the gas. Gas now is brought in from the southwest.

Tri - State Producers now is drilling the well to an even deeper depth. Blair said they found several formations at a shallower depth that would produce gas and oil.

Earlier, the company started a well on the Perry Tritten farm, approximately a mile and a quarter east of the present site. However, at a depth of 6,220 feet they ran into trouble when a layer of shale kept falling. A permit from the state for temporary abandonment of that site was obtained and the new well was started.

There are 163 acres of land included in the site. In addition to the Sell property, the area includes land belonging to Richard and Helen Stouffer, Ernest and Mary Allmon and William Coleman.

Ice Released From Jail In Assault Case

Gary Ice, 22, of Ravine St., in jail since Sept. 25 on charges of resisting arrest and assaulting an officer, was ordered released today by Municipal Judge Samuel M. Chertoff on motion of his counsel, Ben H. Berman, and with the support of Patrolman Ronald Brookes, who was injured in a struggle with Ice Sept. 8 on Dresden Ave.

Berman made the motion on the grounds that Ice had served five weeks of a 60-day sentence, that he had been "an exemplary prisoner;" that the officer injured in a struggle with the defendant was in favor of the release and that arrangements had been made to reimburse Brooks for expense incurred in the arrest, including damage to his uniform and broken teeth.

Supplementing the written motion in remarks today to the court, Berman said that Ice "has been in jail five weeks today. "I do not think that society has anything to gain by keeping him imprisoned further," he added.

Asst. Solicitor Jackman S. Vodrey did not oppose the motion, after checking with Solicitor J. Michael Kapp, who prosecuted the case Sept. 25.

Maine Track Purchase By Edwards Due

New Brighton Police Reporting Off 'Sick'

NEW BRIGHTON, Pa. (AP) — Chief Philip Rini was the only policeman on duty today in this Beaver County community as six of the seven-man force continued to call in sick.

Police have been off the job since 4 p.m. Tuesday. They're demanding a 10 per cent pay hike. They presently receive a starting salary of $455 a month.

No further negotiations are scheduled with council, which has not made public its wage offer.

forts will be made for a settlement of grievances.

Dr. Wyland said supervisory and administrative personnel are being used to tend the coal furnaces that are still in use at seven of the schools. They will remain at these jobs until the boycott is settled, he added.

With administrative personnel performing service work, the heating system at Wells Junior High School in Newell failed to operate and some 230 students were dismissed today about 9 a.m., according to Curtis Smith, principal.

Dr. Wyland said he was "pleased" with the turnout of students in classes considering the school buses aren't running and the children had to bring lunch. The food service program had to be suspended also due to the boycott.

The superintendent explained that the lunch program was suspended since the bus operators also drive the food trucks from the central kitchen in Weirton.

Dr. Wyland said to date neither the administration nor board of education has made any attempt to hire other people to fill the job assignments that are being boycotted.

He said "every effort is being made to keep the schools open, and they will be kept open."

The boycott of work assignments by members of the Hancock County School Service Personnel Association, was precipitated by the passage of a work salary schedule for non-teaching personnel.

In approving the schedule, the board of education and the administration had based the salary rate on two reports, those of Battelle and Jacobs. The former dealt with a comprehensive study of the educational program and the latter with a study of the salary schedule.

Both reports indicated that the budgets were excessively high in the area of maintenance, custodial services and transportation, Wyland pointed out.

It was noted in both surveys the high cost resulted in part from excessive amounts in premium overtime pay.

The administration said in order to check this cost spiral a salary scale, which they contend is equal to and in some instances higher than in like job classifications in the surrounding areas, was adopted.

Part of this new wage scale did place some employes on 40-hour work week when previously these people had been working on a 44-hour schedule.

These employes point out that even though they had received pay increases the increases did not offset the loss in the reduction of the work week. They are asking a 50-cent-an-hour, across-the-board pay hike for all non-teaching employes as well as fringe benefits.

—:—

THE HANCOCK County Education Association, in a majority vote Monday night, endorsed the efforts of the non - certificated employes.

The association issued the following statement:

"We, the teachers of Hancock County, acting through our proper organization, the Hancock County Education Association, and feeling it is to the best interests of the safety, health, and welfare of the students attending our schools, submit the following opinion to the people of Hancock County.

"We strongly feel that a moral issue is at stake in that at a time when the cost of living has risen and continues to rise, the basic take-home pay of many of the non-teaching personnel has been lowered.

"This action was taken by an administration which made unilateral decisions without conferring with the persons affected by such actions.

"We feel this action does not properly reflect the attitude of the majority of our citizens who support education in our schools.

"We, therefore, respectfully request the people, particularly the parents, to support the non-teaching personnel in their efforts to attain the take-home pay with which to properly support and rear their families.

"Such support should include letters and other communications expressing their sentiments to the duly - elected board of education of Hancock County and the local administration.

"Furthermore, it is felt that the non - teaching personnel constitute a trained and properly - qualified body of workers and their absence from their proper stations or their replacement by 'pick-up' workers would endanger the safety, health, and welfare of our students."

Mingo School Bus Driver Issue Settled

WILLIAMSON, W. Va. (AP)— Mingo County school bus drivers were back behind their wheels today after a one-day "sick call" was cured when the county school board found a full-time job for an older driver.

The drivers said the school board had promised to give substitute Frankie Corea a "suitable job" when one came open but had not lived up to the promise.

Corea was given a custodian job at a Williamson grade school.

HAVE YOU A QUESTION?

QUESTION:

"What reason is there for suggesting that "PLEASE OMIT FLOWERS" not be published in obituary notices?"

ANSWER:

Most friends of the family are embarrassed by not having the privilege of sending flowers as their personal token of friendship. Experienced families greatly appreciate the personal sentiment expressed through floral bouquets.

Support Issue No. 1

Important and needed benefits would be realized by residents of the East Liverpool area and across Ohio from voter approval of State Issue No. 1 on Tuesday's general election ballot.

Of immediate interest are the provisions for some $800,000 for further development of the Kent State University Academic Center here, and $100,000 for establishment of a pottery museum in the city.

Further, the proposed constitutional amendment which would authorize issuance of $759 million in bonds and notes, would provide:

1. For highways and research for highways and highway transportation, a total of $500 million.

2. For water pollution control, for higher education and technical and vocational education, for parks and recreation, for airports and other capital improvements, a total of $259 million.

The highway issue is different from others that preceded it in that it would be a revolving fund with a 30-year limitation.

No more than $100 million in bonds could be isued in any one year and not more than $500 million could be outstanding at any one time. New bonds may be issued to the limit of obligations retired.

In our judgment, this is an exceedingly good program because it guarantees a continuing flow of funds into vital highway construction without bringing new issues before the voters every few years.

No one familiar with the education needs of this area or with the growth of Kent's operations here can doubt the importance of a broad and sound higher education program—important to our youth and important to the continuing progress of our communities.

In addition, the establishment of a large, public museum devoted to the history and economic role of the ceramic industry would be a worthy tribute to the pottery trade of this area and a tourist attraction for the whole district.

The need for the other capital improvement programs should be quite clear.

Communities across the state will benefit directly and indirectly from improvements that will be provided by approval of Issue 1.

State Issue involves the imposition of no new taxes. It will help our community and our state keep pace with the demands of our time. A "Yes" vote will be a vote for progress.

The Trouble In A Nutshell

Members of the President's commission on the causes and prevention of violence spent a full morning recently hearing testimony relative to their assignment.

Primarily they listened to two of the most articulate of the youth movement leaders, Tom Hayden, a founder of Students for a Democratic Society, and Samuel W. Brown Jr., coordinator of the youths who supportel Sen. Eugene McCarthy's presidential bid.

THE TWO YOUNG MEN, the former urging revolutionary action to overthrow the American political system and the latter advocating bringing about change by working within the system, along with the president of Yale University, Kingman Brewster Jr., concluded that much violence stems from a lack of willingness by the leaders of the country and the universities to embrace broad and needed change.

Although the members of the commission seemed unable to accept the radical views of the young men, they obviously were impressed by the ability of the pair to express them.

But at least one member of the panel was described as being totally usimpressed by the two witnesses. Eric Hoffer, the 66-year-old longshoreman-philosopher from the West Coast, seemed displeased with what he heard.

IN ONE astute observation he pretty well summed up what the two youth leaders had been attempting to explain at great length as the reasons for the current violence throughout America.

Mr. Hoffer commented pithily: "The trouble with you people is that you don't believe in majority rule."

Toll Could Be Worse

As sickening as the weekly casualty tolls from Vietnam are, they would be much worse without the extraordinary medical effort that is a part of every day in Vietnam.

Prime factors in saving the lives and limbs of American servicemen are speedy evacuation of the wounded from the battlefield to the hospital and competent doctors.

During World War II, 71 of every 100 men wounded in battle were saved. The figure rose to 74 per 100 in Korea. In Vietnam, 82 of every 100 are saved.

During the Korean War, the amputation rate was high because only a few surgeons were familiar with vascular surgery. Surgeons now learn the technique in residency. The knowledge is paying dividends to shot-up soldiers who otherwise would go through life minus an arm or a leg.

Medical experts in Vietnam claim no wounded man is more than 30 helicopter minutes from a fully staffed hospital with the best of equipment.

From the soldier's point of view, availability of expert medical care can't compare with being back home, but he considers it making the best of a bad situation.

Being a few minutes from hospital care is quite a contrast to the 24-hour jolting truck ride that was the lot of a soldier wounded in the Korean War.

Army physicians report there is no such thing as a 24-hour untreated case in Vietnam.

We have made exceptional progress in treating the wounded.

Now if we could just do something about preventing the killing.

Letters To The Editor

EDITOR OF THE REVIEW:

This letter is to make East Liverpool citizens aware of legislation enacted by Council October 12, 1968, which authorizes the mayor during an emergency to place extra men in uniform as police officers. These men will be hired without an examination or training. They can be kept for a maximum of 120 days.

The present strength of the department is 24 well trained and experienced men who had to pass an examination testing their ability to adapt to police work. As of January 1, 1966, Ohio adopted legislation that requires every man hired as a police officer to pass a course of 120 hours of instruction in which the officer receives basic police procedures, including 12 hours of weapon instruction.

Council has stated it has no funds available for wage increases for the employees now on the payroll. The police and fire departments agreed to work with one man short until the end of the year in order to obtain the wage settlement in July 1968.

Do you citizens realize that when a man reports off sick there are no funds avalable to call a man out to replace him? Again Council has not looked out for the wellbeing of the citizens of East Liverpool and the officers working. Where will the money come from to pay these extra men for the 120 days at a rate of $22.40 per day?

The police department does not need extra men, but more full time trained police officers. You can not train a man for a sensitive position on the department in a few weeks. An example of one of these positions is the desk officer—this man is the key to the entire operations in the department.

The men now filling these positions have years of experience and training in police work, the average years range about 6, with one man having in excess of 20 years police experience. A man with a few weeks of training will not be able to take this job over. It takes the quick, alert, sure thinking only training and experience can give a man.

It has been shown all over the country in the past few years what happens when men are not trained in civil disturbances. Why are the National Board units now required to have this training? The training lessens the chance of a mistake which perhaps would injure you or one of your loved ones, or another officer.

It also provides for equal protection for all of the citizens of the community. The untrained man is not only a burden to himself, but to his fellow officers and the general citizens of the community. The membership of the Fraternal Order of Police Lodge 29 seeks your help in having this ordinance repealed. For your safety as well as the police officers, ask your Councilman about this and urge him to seek a repeal of this ordinance.

If you have any questions this letter fails to answer feel free to contact any police officer in this city with your questions and leave your name and address so these questions will be answered.

President
Fraternal Order of Police Lodge 29

EDITOR OF THE REVIEW:

Today's school children are exposed to a tremendous "sexplosion" in books, movies, television, and advertising. Almost as soon as they enter grade school, they are subjected to four letter words, obscene gestures and mis-information.

The sex classes which have been introduced are an attempt to give the true facts of life and to teach children to put the "sexplosion" in its proper perspective. Certainly no intelligent person can look at the rising number of young, unwed mothers, growing VD cases in young people and the zooming divorce rate and say that our "mum's the word" attitude toward sex has been successful.

As far as mixed classes are concerned, I would far rather see my children discuss sex before a teacher or listen to a doctor or nurse lecture, than worry about conversations in the back seat of a car at a drive-in.

I suggest that the people who have been so vehement in their protest over these classes turn their energies toward cleaning up the movies and book stands. Their support could also be used for such projects as the proposed recreational program for young people which the Jaycees have organized.

In conclusion I would like to urge all parents supporting the sex program to let the board of education know of your view. After all, it is possible to remove sex education from your children, but it is not possible to remove your children from the pressures of the Twentieth Century.

Labor Claims HHH Victory

CHICAGO — Labor is pulling out all the stops for Hubert Humphrey—and he's whistling gaily.

The other day, he stopped long enough to call his intimate friend, Louis Stulberg, ladies' garment union leader, to say privately, "Lou, we're going to win."

Victor Riesel

This may be whistling in the dark, or it may be the campaign d.t.'s, or it may be political prescience.

Whatever it is, it's an expensive tune. Never in presidential history has labor poured out so much for any candidate in so short a time. Never have they attempted to inxpire so many labor chiefs with so much optimism.

On the desks of virtually all national labor leaders is a confidential memo from Mr. Humphrey's inner sanctum saying the Vice Prsident will capture the major big cities, New York, Philadelphia, Detroit, and this Midwest megalopolis.

Transcontinental telephone wires are burning with reports from Al Barkan's Committee On Political Education (COPE). The word is that labor also will take Pittsburgh, thus assuring Pennsylvania; St. Louis, meaning Missouri; Los Angeles and San Francisco (and this means California; says labor's anonymous operations center in the Hotel Fairmount there).

THE WHITE HOUSE has promised to deliver Texas, reports a topside labor chief.

Only a crystal ball institute would gamble on any prediction—but one thing is as predictable as Soviet insults. The labor men are working. They have turned their biggest unions into the biggest political machine since George Washington refused the crown.

This was evident in Detroit the other day, just before the United Auto Workers national headquarters pressured Flint Local 326 into reversing itself on George Wallace. The auto union cannot afford to lose Michigan to Richard Nixon—especially not this year, so soon after braaking with George Meany's AFL-CIO, and after losing the state to George Romney and Senator Kobert Griffin.

Walter Reuther would be as red in the face as he is in the hair if the Michigan proletariat repudiated him. If he and his powerful union can't deliver the state, what standing would they have during the next administration, be it Mr. Humphrey's, Mr. Nixon's or Mr. Wallace's?

Mr. Reuther is no exception. Virtually all major labor leaders are pouring on the heat. The campaign runs all the way from distribution of recordings of "The Spiro T. Agnew Blues," to an enormous political mailing, dispatched by the former staunch Republican, Maurice Hutcheson, Carpenters president, to the Brotherhood's 800,000 members. That's quite a mail drop. And that's just one of 128 national unions.

MORE DRAMATIC IS Joe Curran's National Maritime Union. On Friday, Oct. 11, his executive assistant, William Perry, led a small but vitally significant delegation to Hubert Humphrey's sick bay in New York City's Waldorf Towers.

With Mr. Perry were six leaders of the Southwest Latin (Mexican)-American communities, claiming some three million followers who, until the assassination, were emotional "viva Kennedy" forces.

They will be organized, agitated and brought out to vote, the virus-laden vice president was told. The candidate did very little that Friday but bemoan the flu bug and talk with the Mexican-American officials. Then, with Mr. Curran's son, Joe Paul, who voluntarily fought three hitches in South Vietnam, as executive director, the Spanish-speaking organizers sped to the Southwest to open storefront headquarters. Their objective is to swing Texas, Arizona, New Mexico, Oklahoma (and even help swing Michigan) to the Democrats. Joe Paul Curren also has gone into Mississippi to work with Charles Evers among the Negroes there.

It takes money. But the unions aren't shy. The central AFL-CIO Washington headquarters may run out of cash from time to time. But then a call goes out for another "three cents per capita"—three pennies for each of 14 million members. That antes up to close to half a million dollars for special projects.

Not only does Mr. Humphrey get organization ash, but organizational talent as well. International AFL-CIO staff men now are jetting with him as an anti-discombolulation force—especially since the other afternoon, when one of Mr. Humphrey's geniuses told the powerful Service Employes president, Dave Sullivan, and West Virginia's governor, Hulett Smith, to take the public bus to the airport. "We don't have room for you in our cars."

Mr. Sullivan has hundreds of thousands of followers passing out handbills in skyscrapers and apartment houses throughout the land.

That's why Mr. Humphrey is whistling "The Spiro T. Agnew blues."

Odd Facts

The Great Pyramid of Egypt, which covers about 13 acres of ground and is 480 feet high, required 20 years to construct, with about 100,000 men working in each relay. It is built of 2,300,000 stones, each weighing on an average of 2½ tons.

The well-known army bugle call, "Retreat," is one of the few such bugle calls to have been used by the medieval Crusaders.

If one were to travel due west from Los Angeles, California, the first land one would reach would be one of the islands of Japan.

RAYMOND MOLEY

More Agony Than Ecstasy

In these final, frenzied days of our presidential campaign, we are witnessing the heavy price our political system is paying for two mechanical marvels — the jet plane and television.

These inventions, some claim, have enriched our civilization. But so far as they are used in choosing a president, they have imposed upon candidates a cruel burden, denied the electorate the education it deserves and have actually limited our choice of a president.

They have utterly transformed means of campaigning but human nature has remained the same. We are a simian breed in which curiosity is our dominant trait. We demand that our candidates be seen and heard and, within limits, felt. Hence our candidates must race about the country at a pace that would kill most normal men.

AND SINCE THE CAMPAIGN TIME decided by law and custom is still approximately what it always has been, this mad routine extends far beyond what is a reasonable period for voters to reach a decision.

In those quiet pastoral days long ago, candidates traveled very little. Then William J. Bryan took to the rails and made long speaking trips. But because transportation was slow there was reasonable time between appearances to prepare speeches and to get them to the press.

All that ended when fast travel by air came in and television made it possible to broadcast the images of the candidates to millions of viewers and listeners.

So far as education is concerned, this means a net loss. For the press is unable to keep pace. There are too many appearances and too many speeches to cover adequately.

In 1960, Richard Nixon visited 50 states, traveled 65,000 miles, made 180 scheduled speeches and an equal number of unscheduled ones. same.

Theodore H. White's book, "The Making of the President: 1960," gives us the details. By late October the candidates were drained physically, mentally and emotionally and so were their managers, special consultants and companions.

But the press coverage was less informative than in any earlier campaign. The press simply could not respond. White says:

"For weeks and months they (the reporters) must live like tramps — shaken, rushed, fighting with police at police lines, dirty and unbathed for days on end, herded into buses like schoolboys. Physical care and handling were much alike in both headquarters . . . but none of this meticulous, logistic care could erase the turbulent reality of reporting, the insane jet-flight quality of the 1960 campaign . . . men who had to combine the qualities of roustabouts and philosophers."

That is what happened in 1960. It is happening now in the final two weeks of 1968's campaign.

And what about the impact upon the candidates? Nixon will break all records because his ordeal began nine months and several million dollars ago in New Hampshire. Only because he is an experienced campaigner with remarkable stamina and good health could he have endured such a physical and mental test.

Hubert Humphrey has been more limited because his real campaign began only after the President bowed out and his participation in the primaries was scant.

At this state millions of voters must be dazed and confused — even bored — by what they have seen and heard during the long months since January. They will probably vote as they intended to vote two months ago.

IN THE YEARS AHEAD the conditions imposed on candidates must limit the number and quality of those who seek to be president. Those who choose candidates in primaries and conventions must guide themselves by how an aspirant can endure a jet-propelled campaign. Youth, vigor, the attributes of a long-distance runner will prevail.

How will this or that man project himself on TV? Very few men of maturity will offer themselves as candidates and the inevitable result will be a lowering of the quality of our presidents.

Through The Years

THIRTY YEARS AGO — Albert Schramm Jr. was named president and Helen Christy, vice president, of the Torch Bearers of the Salvation Army.

Don G. Stewart, clerk of the Hancock County Court, announced the County had registered 15,284 voters for the November election.

TWENTY YEARS AGO — Mrs. Alvin Arner was elected statistical secretary of the West Conference of the WMS of the Pittsburgh Synod of United Lutheran Churches.

Don (Shot) Bennett, former East Liverpool High School basketball star, was named assistant basketball coach and head baseball coach at Sharon (Pa.) High School.

TEN YEARS AGO — East Liverpool was selected as the site for an extension branch of Kent State University.

John Detchon was elected president of the Student Council at East Junior High School.

MORE DRAMATIC IS Joe Curran's National Maritime Union. On Friday, Oct. 11, his executive assistant, William Perry, led a small but vitally significant delegation to Hubert Humphrey's sick bay in New York City's Waldorf Towers.

With Mr. Perry were six leaders of the Southwest Latin (Mexican)-American communities, claiming some three million followers who, until the assassination, were emotional "viva Kennedy" forces.

They will be organized, agitated and brought out to vote, the virus-laden vice president was told. The candidate did very little that Friday but bemoan the flu bug and talk with the Mexican-American officials. Then, with Mr. Curran's son, Joe Paul, who voluntarily fought three hitches in South Vietnam, as executive director, the Spanish-speaking organizers sped to the Southwest to open storefront headquarters. Their objective is to swing Texas, Arizona, New Mexico, Oklahoma (and even help swing Michigan) to the Democrats. Joe Paul Curren also has gone into Mississippi to work with Charles Evers among the Negroes there.

It takes money. But the unions aren't shy. The central AFL-CIO Washington headquarters may run out of cash from time to time. But then a call goes out for another "three cents per capita"—three pennies for each of 14 million members. That antes up to close to half a million dollars for special projects.

Not only does Mr. Humphrey get organization ash, but organizational talent as well. International AFL-CIO staff men now are jetting with him as an anti-discombolulation force—especially since the other afternoon, when one of Mr. Humphrey's geniuses told the powerful Service Employes president, Dave Sullivan, and West Virginia's governor, Hulett Smith, to take the public bus to the airport. "We don't have room for you in our cars."

Mr. Sullivan has hundreds of thousands of followers passing out handbills in skyscrapers and apartment houses throughout the land.

That's why Mr. Humphrey is whistling "The Spiro T. Agnew blues."

Odd Facts

The Great Pyramid of Egypt, which covers about 13 acres of ground and is 480 feet high, required 20 years to construct, with about 100,000 men working in each relay. It is built of 2,300,000 stones, each weighing on an average of 2½ tons.

The well-known army bugle call, "Retreat," is one of the few such bugle calls to have been used by the medieval Crusaders.

If one were to travel due west from Los Angeles, California, the first land one would reach would be one of the islands of Japan.

RAYMOND MOLEY

More Agony Than Ecstasy

In these final, frenzied days of our presidential campaign, we are witnessing the heavy price our political system is paying for two mechanical marvels — the jet plane and television.

These inventions, some claim, have enriched our civilization. But so far as they are used in choosing a president, they have imposed upon candidates a cruel burden, denied the electorate the education it deserves and have actually limited our choice of a president.

They have utterly transformed means of campaigning but human nature has remained the same. We are a simian breed in which curiosity is our dominant trait. We demand that our candidates be seen and heard and, within limits, felt. Hence our candidates must race about the country at a pace that would kill most normal men.

AND SINCE THE CAMPAIGN TIME decided by law and custom is still approximately what it always has been, this mad routine extends far beyond what is a reasonable period for voters to reach a decision.

In those quiet pastoral days long ago, candidates traveled very little. Then William J. Bryan took to the rails and made long speaking trips. But because transportation was slow there was reasonable time between appearances to prepare speeches and to get them to the press.

All that ended when fast travel by air came in and television made it possible to broadcast the images of the candidates to millions of viewers and listeners.

So far as education is concerned, this means a net loss. For the press is unable to keep pace. There are too many appearances and too many speeches to cover adequately.

In 1960, Richard Nixon visited 50 states, traveled 65,000 miles, made 180 scheduled speeches and an equal number of unscheduled ones. same.

Theodore H. White's book, "The Making of the President: 1960," gives us the details. By late October the candidates were drained physically, mentally and emotionally and so were their managers, special consultants and companions.

But the press coverage was less informative than in any earlier campaign. The press simply could not respond. White says:

"For weeks and months they (the reporters) must live like tramps — shaken, rushed, fighting with police at police lines, dirty and unbathed for days on end, herded into buses like schoolboys. Physical care and handling were much alike in both headquarters . . . but none of this meticulous, logistic care could erase the turbulent reality of reporting, the insane jet-flight quality of the 1960 campaign . . . men who had to combine the qualities of roustabouts and philosophers."

That is what happened in 1960. It is happening now in the final two weeks of 1968's campaign.

And what about the impact upon the candidates? Nixon will break all records because his ordeal began nine months and several million dollars ago in New Hampshire. Only because he is an experienced campaigner with remarkable stamina and good health could he have endured such a physical and mental test.

Hubert Humphrey has been more limited because his real campaign began only after the President bowed out and his participation in the primaries was scant.

At this state millions of voters must be dazed and confused — even bored — by what they have seen and heard during the long months since January. They will probably vote as they intended to vote two months ago.

IN THE YEARS AHEAD the conditions imposed on candidates must limit the number and quality of those who seek to be president. Those who choose candidates in primaries and conventions must guide themselves by how an aspirant can endure a jet-propelled campaign. Youth, vigor, the attributes of a long-distance runner will prevail.

How will this or that man project himself on TV? Very few men of maturity will offer themselves as candidates and the inevitable result will be a lowering of the quality of our presidents.

Here's How Indirect System Works

WASHINGTON (AP) — Citizens going to the polls next Tuesday thinking they will be voting for Richard M. Nixon or Hubert H. Humphrey, or George C. Wallace, will be wrong.

Instead, they actually will be voting for a group of people called presidential electors. The electors picked will decide who will be the next president—unless, for the third time in the nation's history, the issue gets passed on to the U.S. House of Representatives.

It's all because of the indirect system for election of a president developed by the framers of the Constitution.

Originally, the state legislatures picked the electors, but that was soon changed to give the job to the people.

In fact, the electors soon became rubber stamps, reflecting the result of the popular vote.

This year, however, because of the uncertainty caused by a three-way presidential race, there is more chance that the electors will act independently.

In order to be elected, a candidate must receive the votes of at least 270 of the 538 electors.

But with three major candidates this year, it is possible that none will win in enough states to be assured 270 electoral votes.

Each state has a number of electors equal to its senators and congressmen. For example, Maryland, with eight House members and two in the Senate, has 10 electoral votes.

The District of Columbia, with no congressional representation, was given three electoral votes by the 23rd Amendment.

In each state, voters selecting among the various presidential candidates are actually picking from slates of electors. In some, they vote for a whole slate, in others for individual electors. Whichever candidate gets the most votes in the state, his electors win. It doesn't matter if he gets 90 per cent, or receives one more vote than each of his opponents.

On Dec. 16, the electors selected in the general election meet in their respective state capitals to cast their votes for president and vice president.

With rare exceptions, electors have generally followed the instructions of their state's voters. But they don't have to. Only 17 states have any kind of legal instruction for electors, and only three provide penalties for those who fail to follow their mandate.

Thus, between the time they are elected and the time they vote, the electors could decide to vote for someone other than the candidate they represented on Election Day.

Wallace, whose candidacy is the chief reason for a possibly inconclusive outcome next Tuesday, has said that he will attempt to deal with one of the other two candidates if he ends up with the balance of power.

Even if their candidate gives them instructions, most of the electors would be entirely free to vote Dec. 16 for whomever they want—including someone other than Humphrey, Nixon or Wallace.

Most, however, are veteran party functionaries, made electors as a reward for long service, likely to stay loyal to their party and its candidate.

However, even if there is bargaining for electors' support there would be no guarantee that any candidate would get the necessary 270 votes.

If that happens, the Constitution provides that the House to be elected Nov. 5 would pick the new president from among the three top contenders, in terms of electoral votes. The new Senate would pick the vice president from among the top two.

Voting would start Jan. 6, right after Congress officially tabulates the votes cast Dec. 16 by the electors.

In the Senate, each senator would have one vote, with a majority needed to win. If the Humphrey-Muskie ticket places first or second, an expected Democratic majority in the Senate would likely elect Sen. Edmund S. Muskie as vice president.

But if the Democrats run third, the choice would be between Gen. Curtis E. LeMay and Gov. Spiro T. Agnew.

In the House, each state has one vote in picking a president. The vote is decided by each state's House delegation, with a majority in control. Thus, Nevada's one congressman would have as much to say about the outcome as New York's 41-member House delegation. An evenly split delegation—there are three now—might lose its vote completely.

To win in the House, a candidate must receive the votes of 26 of the 50 states. The District of Columbia, with no House seats, would have no vote.

With three candidates and the possibility of several evenly divided delegations, it might be very difficult for any candidate to get the needed 26 votes unless two of the three joined forces.

In addition, some congressmen, especially Southern Democrats, have indicated they might not vote with their party if the election goes to the House.

Balloting would continue until one candidate got the necessary 26 votes.

Fingerprints Probed In $60,000 Robbery

PITTSBURGH (AP) — Police are investigating finger prints in an effort to learn the identity of two men who handcuffed a Munhall widow to her bed and stole $60,000 in valuables.

Phyllis Tobkin told police the bandits shielded their faces, one with a stocking and the other with his arm. She said one of the men was armed.

Mrs. Tobkin said she freed herself and called the authorities after struggling for several hours. She said the thieves took a 10 carat ring valued at $50,000, and $8,000 mink coat and $200 in cash.

LISBON (AP) — Portugal's orchards this year will produce 40 per cent fewer apples and 27 per cent fewer pears than in 1967 because of a prolonged dry spell, the National Institute of Statistics estimates.

U.S. Steel Reveals $25 Million Slump

NEW YORK (AP) — U.S. Steel Corp., announcing a drop of $25 million in third quarter earnings, said the steel production lag following a new labor contract Aug. 1, greatly contributed to the decrease.

Net income for the third quarter was $11 million compared with $36.2 million for the third quarter in 1967, the company announced Tuesday.

Sales for the third quarter totaled $1.08 million compared with $1.013 billion in the same period in 1967.

The first nine months' earnings in 1968 were $139.5 million. Last year's third quarter earnings were $120.8 million.

Sales for the first nine months this year were $3.61 billion, compared with $3.01 billion the third quarter in 1967.

Double Trouble Hits Woman In Honolulu

HONOLULU (AP) — A young woman lost her purse to a thief on Waikiki Beach and returned to her hotel to find her room burglarized.

Police said the thief had used the room key found in Pamela Meares' purse to get into her hotel room and steal $750 in jewelry, a $700 airline ticket and $210 in travelers checks.

Miss Meares, 21, who is visiting here from Australia, said she put her purse on the beach and returned from a swim 15 minutes later to discover it missing. She hurried back to her hotel room, but was too late.

Despite 'Vote Humphrey' Sign

McCarthy Waves Banner Of Revolt Against Party

WASHINGTON (AP) — Behind the "Vote Humphrey" sign he has hoisted belatedly, Sen. Eugene J. McCarthy still waves the banner of revolt against the Democratic party.

In announcing his preference for Democrat Hubert H. Humphrey over Republican Richard M. Nixon, McCarthy made it clear he expects the "children's crusade" of the spring primary campaign to continue beyond Tuesday's presidential election.

Many of those from colleges and high schools who did volunteer work for McCarthy in the primaries, still are too young to vote.

But the Minnesota senator obviously believes as time goes on they will continue to look at him as a leader who offers youth a voice in future national decisions.

With this in mind, McCarthy seems to have cleared the way for an effort at "reform of the political process within the Democratic party" by announcing that he will not be a candidate of that party for re-election to the Senate in 1970 or for its 1972 presidential nomination.

This has the double political benefit of presenting himself as something of a crusader to his followers and of muting criticism that he only wants to reform the nominating process in order to make it easier for him to grab off the prize four years from now.

He noted in the formal statement endorsing Humphrey that he had urged the young people and others who supported his unsuccessful bid for the presidential nomination this year "to test the established political processes of the Democratic party."

But he added that "I will not make that request of them again unless those processes have clearly been changed."

Was this a third party threat? McCarthy wouldn't say.

But his promise to work toward party reform and to "continue to discuss the substantive issues of American politics" seemed to imply that if he can't get satisfaction within the party he may apply elsewhere.

While he declined to comment on Humphrey's chances of election, McCarthy displayed minimal optimism on that score. He would say only he thinks the nominee's chances have improved.

The nature of McCarthy endorsement, given despite the Senator's analysis that Humphrey's position on major issues "falls far short of what I think it should be," made it of somewhat dubious value to the nominee.

Wallace Takes Campaign Into Wheeling Today

WHEELING, W. Va. (AP)— George C. Wallace brought his third-party presidential campaign into this steel-producing area today as he launched the final week of his campaign.

Wallace canceled two previous vsits to Wheeling — once because f the illness of his late wife Lurleen, then governor of Alabama, and then because the airport here was too small for his plane to land.

Steelworkers are concentrated heavily in the Wheeling area with headquarters of Wheeling Steel Corp. located in the city.

The Ohio County sheriff's office indicated that anyone carrying anti-Wallace placards at the rally site would be escorted away.

There were no publicly announced demonstrations against the former Alabama governor. However, a small group of students from the Wheeling campus of West Liberty State College and Wheeling College was expected to present some protest.

The sheriff's office said placards Wallace to Wheeling probably would be allowed.

Union Says No-Strike Pact Doesn't Apply In OSU Issue

COLUMBUS, Ohio AP) — A public employes union official said Tuesday that a no-strike agreement with Ohio State University does not apply to the current dispute.

L. O. Henry, director of Council 21 of the American Federation of State, County and Municipal Employes, said contract labor was not an issue when the agreement was signed last year.

He said the agreement not to strike before the fall of 1970 applied only to the issues of wages and fringe benefits, which already have been settled.

The union wants OSU to discontinue its policy of contracting outside labor for certain services. University officials contend that the practice enables the school to operate mort economically and more afficiently.

Henry said Tuesday that the policy is "designed to choke the union — to deteriorate and destroy it."

Gordon B. Carson, the university's vice president for business and finance, said "the question of contracting labor is an economic one and has nothing to do with our respect for the union."

Carson said that in some cases it is not feasible for the university to handle some work through its employes when it can be contracted for less money.

As an example he cited a contract the university has with a taxicab company to pick up and deliver small packages. "It is far cheaper for us to contract with the cab company than to send one of our people downtown to pick up the merchandise," Carson said.

If negotiations between OSU and the union fail to settle the dispute, Henry said, the union leaders probably will recommend that the membership vote to strike at its meeting Saturday night.

Talks were scheduled to resume this afternoon.

Meanwhile, some details of an agreement reached Monday which settled the same issue at Ohio University in Athens have been announced by school officials.

In a letter to Oscar McGee, local president, the university assured the union that it had "no intent to displace present employes from university employment to undermine the union."

It said it would not contract for housekeeping, environmental physical plant or food services "except in cases of emergency, temporary employment of when specialized professional or technical services are required."

Mrs. Eugene Seeley reported on the 12th annual West Virginia Federation of Women's Clubs' adult education institute which she attended in July at West Virginia University, Morgantown. The members voted to contribute $1.50 per member to the Pearl S. Buck project (restoring of the Pearl S. Buck birthplace.)

Mrs. Clayton Hobbs Sr., who conducted the business meeting, gave a brief report on the Northern District convention of Federated Women's Clubs held Saturday in Warwood.

Personalities In The News

SENECA FALLS, N.Y. (AP) — Dwight D. Eisenhower says he wrote off as "improbable" the thought that "I might reach the venerable age of 78."

The former president made the observation in a letter to students at Eisenhower College, a four-year liberal arts institution that opened its doors this fall.

Eisenhower wrote: "Despite the formidable number of years I have been marking Oct. 14th as an annual milestone, each birthday has at least one new and fresh element in the letters and messages I receive. This year it was the greetings from you, the charter class of Eisenhower College.

"I must say that when I was your age the thought that I might reach the venerable age of 78, if it entered my mind, was instantly written off as improbable; and in my most fantastic imaginings I am sure I never entertained for a moment so absurd a notion as a college named after me."

The letter, postmarked Oct. 23, was sent from Walter Reed Army Hospital in Washington, where Eisenhower is recovering from a series of heart attacks.

NEW YORK (AP) — Sharman Douglas, daughter of the former ambassador to Great Britain, Lewis W. Douglas, and Mrs. Douglas of Tucson, Ariz., was married Tuesday to Andrew Mackenzie Hay, a London-born food importer.

The wedding was held in the chapel of the Madison Avenue Presbyterian Church. About 100 guests, all close friends and relatives, attended.

The bride, a close friend of Princess Margaret, became known as Charmin' Sharman during the late 1940's when her father served as ambassador and her name was romantically linked with a succession of eligible men.

"I have been reported engaged to three different young men in the past two weeks and it's a little hard on them," she once said. Despite the reports she managed to remain single until her marriage Tuesday.

Hay has two previous marriages both of which ended in divorce.

cal governments, businessmen and labor unions. This kind of growth will keep us from worrying about law and order in our communities.

"Across the nation, making of an issue of law and order is a little silly, because I know of no Republican or Democrat of good standing who isn't in favor of law and order. Under our constitution, the attorney general and the Governor are the chief law enforcers of the states and the Sheriffs and mayors and police chiefs are the local enforcers. Therefore, people are going to have different kinds of enforcement, the kind they desire at the local level. I am sure no one wants a national police force.

"The policy shaped on Vietnam has been pretty much bipartisan, and I believe there will be a negotiated settlement —but it will require sincere evidence and action on Hanoi's side as well. Our foreign policy may have not been perfect in the past 15 years, but the foreign policy of the Communists has been almost utter failure — in Africa, in the split between Moscow and Peking, in the rejections in Latin America and in the Egyptian debacle.

"I plan to support continued highway building, urban development, programs to solve air and water pollution, and I have great hopes that barge traffic on the Ohio River will continue to grow, and that the district from East Liverpool to Powhattan Point will become a key river terminal transportation center."

"Social programming and medicare:

"All social programming must be directed toward helping the individual help himself. The dignity of the individual can and must be preserved while helping him through difficult times, of which he had little or no control. Medicare has helped many senior citizens who might have had difficulty otherwise; however, the cost has been much higher than anticipated.

"Modernization and improvement of this plan can be done to make it more effective for those who need it. As a physician, I am in an excellent position to correct and improve the flaws in this type legislation. Since the introduction of Medicare, private insurance companies have dropped their coverage of senior citizens thus leaving them vulnerable to the high cost of adequate medical care were it not for the medicare program. It would be cruel indeed to ever suggest the removal of this protection of our senior citizens.

He said, "People having papers recorded at the Courthouse experience long delays in getting them back from the Recorder's office." He hinted at "a problem of personnel turnover."

McQuilkin said he believes the county engineer, being a registered engineer and licensed surveyor, should do more of the routine engineering work instead of hiring a consultant at added expense to the county.

The GOP chairman said operating costs in the Clerk of Courts office have increased 30 per cent in the last four years.

Gosney said, "Never under a Democrat - controlled board of commissioners has the county been as broke as it is now. The fact is that Mr. Gause and Mr. Boyd are the commissioners and are responsible for the poor financial condition."

"There are so broke there could be a possibility that the election may not be held Tuesday because of two special elections held by Beaver Local and East Liverpool school districts, and the Election Board had to request in excess of $20,000 to conduct the election Tuesday."

"As for the office holders, Engineer John Ursu has saved the county thousands of dollars on discount purchases of items on which the previous engineer had paid retail prices. The other office holders have operated with honesty, efficiency and true service."

"If anyone wants to discuss increased costs, a likely place would be the Sheriff's Office where expenses have gone up outrageously yet breakings and enterings have gone unsolved and traffic violations ignored. On the other hand, jail breaks have been accomplished with the same jailer on time after time.

"The four Republican officeholders operations have increased costwise so much more than the others there is no comparison," Gosney said.

Young Driver Pays $25 For 90-Mile Pace

Joseph W. Cooper, representing Britton, requested the continuance. He indicated Britton was attempting to reach a settlement with the complaining witness. The affidavit says Britton "did purposely destroy and damage the appurtenances of a motor vehicle without permission by pushing it with his vehicle while it was locked and the transmission was in 'park' gear."

Police, Firemen Resume Wage Talks With Council

City Council's labor relations committee conferred separately Tuesday night with spokesmen for the police and fire departments in a resumption of wage negotiations that was provided for in a settlement reached in June.

At the time the safety forces were granted a 5 per cent pay hike, effective July 1, Council promised to "negotiate in good faith" on further progressions in the wage pattern: Another 5 per cent on Jan. 1, another 5 per cent on July 1, 1969, and a further 5 per cent boost on Jan. 1, 1970.

Council's committee promised to report the results at a Council meeting Monday night. It set another meeting Nov. 11 with the Fraternal Order of Police committee and said it will meet again Nov. 25 with the representatives of Local 24, International Association of Firefighters.

The committee is scheduled to meet tonight at 7:30 with spokesmen for Local 677, American Federation of State, County and Municipal Employes. The local represents employes in various departments. The Council committee is comprised of James Lowe, chairman, Donal I. Burcham and Frank Duffy.

Firemen were represented by James Curry, James Walker and Larry Tullis. Appearing for the police department were Patrolman James Buckley, FOP president, Det. William A. Devon, Lt. Robert Pyle and Patrolman David Huffman.

The police spokesmen told Council they believe the semi-annual 5 per cent boosts should be extended across a three-year span. Councilmen said the agreement last summer provided for the wage series to continue through Jan. 1, 1970. No decision was reached on the point.

Firemen made an additional request for overtime pay. They pointed out firemen do not draw premium pay for overtime at present.

Police submitted several new points. They include: A study to improve hospitalization and life insurance; an hour's pay for an off-duty officer required to appear in Municipal Court as a witness and four hours' pay for those appearing in Common Pleas Court; double time pay for those required to work on holidays, and all national holidays to be regarded as paid holidays.

Rector Goes On Fast To Stem Rowdyism

BENARES, India (AP) —The rector of Benares Hindu University borrowed an old tactic of Mahatma Gandhi in attempting to deal with "increasing student rowdyism."

The rector went on a fast, "praying to God to enrich my students with the wisdom to behave."

Ten hours later about 100 students marched to his residence and "pleaded guilty" of rowdyism and promised to abide by his orders in the future.

The rector then abandoned his fast.

Lisbon Blaze Razes Garage Near Square

LISBON — Fire destroyed Jim's Auto Body Shop on Jail Alley, one block north of the Square, about 12:30 p.m. Tuesday.

The roaring blaze, fanned by a stiff breeze and fed by paint and thinner, had a big start before the alarm sounded.

Sheriff Russell J. Van Fossan, who pressed the fire alarm button at the jail, said he could see clouds of smoke rolling from the garage when the call came in.

James Todd, the owner; his wife, Barbara, and his brother, Dave, fled from the building after an unsuccessful effort to extinguish the flames. They saved four tires and two welding tanks and hose.

Todd said a spark from a welding torch evidently ignited some thinner in the northwest corner next to the office.

The north wall of the 30-by-50-foot concrete block building and the vaulted metal roof collapsed a few minutes after volunteer firemen arrived.

Heat ignited and charred the south wall and roof of Louis Hedl's frame garage just north of the auto body shop.

Zoning

(Continued from Page 1)

the Board of Zoning Appeals, asking it to reverse the decision of the zoning inspector.

When the appeal is filed, the applicant may be granted a year's temporary permit to proceed with the use of the property, as intended, pending the decision on the appeal.

"It's a way to get a temporary change for up to a year," Eckert pointed out. "Meanwhile, we hope the East End zoning question will be settled."

Eckert said a beauty shop, a used car sales agency and a used furniture store which formerly had been prohibited from operating under the zoning code had been granted permission to function.

Long segments of Pennsylvania Ave. are zoned for medium high density residential use. Business properties that were located in the residential areas at the time the law was adopted were allowed to continue, so long as the use of the property was not changed.

If a furniture store vacated a premises, for instance, it could be occupied by another furniture store, provided the change was made in less than two years. But if a furniture store vacated a building in a residential area and some other type of business sought to move in, it was prohibited by the zoning law.

Ice

(Continued from Page 1)

that five weeks in jail should be sufficient to impress on him the consequences of his act," Vodrey said. He said the city would not oppose the motion if Officer Brookes consented to the release.

Brookes, queried by the court, said he had no objections to the release.

"He has conducted himself well while in jail," the officer said. "He has apologized to me and he has made arrangements to reimburse me for expenses. I am willing to see him released."

The officer was off duty for several days as a result of the struggle that broke out when he sought to arrest Ice on an intoxication charge on a Sunday afternoon after an incident in the Buckeye Club. Ice battled with Brookes and Patrolman Jack Strobel, who came to his aid. He finally was arrested with the aid of Capt. Charles E. (Bill) Tice and Patrolman Orin C. Smith.

Judge Chertoff convicted Ice in a lengthy hearing. He sentenced the defendant to a 60-day term on the charge of resisting arrest and 30 days on a charge of assault on the officer. The court ordered the sentences would run concurrently.

Reviewing the sentences today, the judge pointed out that Ice already had completed the sentence on the assault charge.

"I don't think I need to lecture you on the fact that what you did was wrong," he told Ice. "I hope you learned that a police officer is charged with maintaining law and order and the public safety and he must be obeyed. To fight with him, to strike him, was wrong.

"I am especially inclined to agree with this motion when the officer who was assaulted has been promised restitution for his expenses. I will place you on six months' probation as a condition of your release. If you violate any laws of the city or the state in that time, you will go to jail, not only to serve the balance of this sentence but also for the new offense."

The court also cautioned Ice against drinking in the future. "Your physical makeup is such that you become boisterous and pugnacious and lose control of yourself," the judge said. "Conduct yourself in a proper manner while you are on probation."

THE POLITICAL FORCES – THE POLITICAL HACKS – THE PRIVATE INTEREST GROUPS THAT OPPOSED ME FOUR YEARS AGO ARE AT IT ONCE AGAIN.

THEY, ALONG WITH THE PRESENT SHERIFF, ARE LEADING THE FIGHT AGAINST ME. THEY PROMISE MUCH–BUT DO LITTLE. EVERYTHING IS EXPECTED TO BE ABOUT THE SAME. BUT IF YOU ARE READY FOR A CHANGE–IF YOU WANT A SHERIFF THAT WILL LOOK AFTER THE INTERESTS OF ALL THE PEOPLE OF OUR COUNTY, THEN I ASK YOU TO CONSIDER MY CANDIDACY.

IN ORDER TO MAKE THIS CHANGE FOR YOU, I NEED YOUR HELP, I NEED THE VOTE OF THE GOOD PEOPLE OF OUR COUNTY–REGARDLESS OF PARTY AFFILIATION. THE DECISION IS YOURS.

Plans Advanced For Establishing Pottery Museum

Ten attended a Tuesday meeting of area civic leaders interested in promoting establishment of a pottery museum in East Liverpool.

William H. Vodrey Jr. reported on the role which the Ohio Historical Society and the East Liverpool Historical Society have played in the museum project. Vodrey is a director of the state society.

Because the city society has not been active for some time, it was suggested that a meeting be held Nov. 12 at 8 p.m. at the Potters Savings & Loan Co. annex to reactivate the organization.

It is hoped the socety can assist in the drive to obtain additional state support for funds for the use of the present Post Office building for the museum. Some $100,000 has been allotted under the financing program of State Issue No. 1 for such a museum here.

Don Eckert, city planning coordinator, presided during the meeting at the Ohio Valley Gas Co. office.

Eckert urged anyone interested to the historical society reactivation or establishment of the museum to attend the Nov. 12 meeting.

Recent Decision Gives Man New Appeal For Trial

ASHTABULA, Ohio (AP) — Robert L. Pruett, who has been on Death Row at Ohio Penitentiary since February of 1965, will get another appeal for a new trial before the Ohio Supreme Court because of a recent U.S. Supreme Court decision.

The decision by the high court bars the death penalty when prospective jurors have been excused because of their objection to capital punishment.

Pruett, 29, of Conneaut, was found guilty of first-degree murder Feb. 24, 1965, in the rape-slaying of Susan Osborne, 17, of Conneaut.

In remanding the case to Ohio, the U.S. Supreme Court instructed the state to re-examine the appeal in the light of a decision in the case of William C. Witherspoon.

In the decision, the U.S. Supreme Court last June 23 held that the death penalty could not be imposed if the jury was chosen by excluding prospective jurors simply because they voiced general objections or scruples against the death penalty.

Pruett's lawyers, Howard and Gordon Nazor, in their appeal to the U.S. Supreme Court, argued that a number of prospective jurors were excused for the sole reason they were opposed to capital punishment.

Chester Kiwanis Club Hears Talk By Doctor

Dr. Alexander S. Fisher of East Liverpool emphasized the need for proper communication between parents and chidren when he addressed the Chester Kiwanis Club Tuesday night at the City Hall.

He pointed out such communication "creates the atmosphere in which a good home life can be found."

"The acceptance of the guiding hands of parents begins at birth and continues until the child becomes an adult," the physician said. "No part of this training period is unimportant."

Calling the situation a two-way street, Dr. Fisher also emphasized that "the understanding of the child by the parent" is equally important.

He explained this does not mean that the child should be permitted to "take over the reins, but it does mean that the parents should so live their lives that their children will have respect for them."

Touching on sex education in the schools, the speaker called the competence of the instructor and his or her presentation the key to such a program.

"The parent also must play an important part in such education and must be able to answer questions in such a manner that makes sex a natural part of living and not something to be found merely in smutty books."

Al Fineman, program chairman, introduced Dr. Fisher.

Robert Cooley presided, Lloyd Mansfield led the singing and Ron Pschirer gave the invocation. Twenty - three attended.

Bill Bishop, chairman of the Pancake Supper Committee, reminded members that the hall will be "set up" for the two nights Nov. 13 and 14 following the meeting Nov. 12. Members of the Oak Glen Key Club will assist.

Dinner will be served from 5 to 8 each evening, with proceeds to be used for the club's community youth activities.

Fineman discussed the gum ball machine project and Cooley urged members to promote tickets for the supper and the sale of fruit cakes.

Cleveland Clinic Expansion Set To Include Heliport

CLEVELAND, Ohio (AP) — Part of a $30 million expansion program at Cleveland Clinic includes a heliport on top of a new hospital.

Dr. Fay A. LeFevre, chairman of the clinic board of directors, said Tuesday the landing area for helicopters will speed the arrival of transplant patients and vital organs used in the transplants.

Helicopters used in transplant operations have been landing in a parking lot.

Doctors at the clinic performed Ohio's first heart transplant in September.

The expansion of the clinic will mean the addition of 300 hospital beds, 13 new operating rooms, doubling of the clinic's intensive care unit and a 650-car parking facility.

The program calls for work on the new hospital wing to begin in the fall of 1969. When the expansion is complete, the clinic will have 900 general hospital beds and 36 operating rooms.

ANN LANDERS

Problem Of Insecurity

By Ann Landers

Dear Ann Landers: What's wrong with a person who insists on making scenes in restaurants? My brother-in-law seems to enjoy bawling out waiters, yelling at busboys — anything to get attention.

Although no one else seems to notice, he's constantly complaining that the silverware isn't clean, the glasses are cloudy, the table linen is wrinkled, the sugar is lumpy, the salt shakers don't pour freely, the service is slow, there's too much noise in the kitchen — and on and on and on.

Why would a person behave like this? — EMBARRASSED.

-:-

Dear Em: Anyone who must abuse waiters and busboys and find fault with the silver, the glasses, the linens, the salt and sugar, the linens, phathetically insecure. If and when your brother-in-law develops some self-esteem and a measure of contentment, he will not find it necessary to abuse those who are paid to serve him to prove that he's better than they are.

Doting Gramps

Dear Ann: My husband left for Vietnam one month after our son was born. My father has become so attached to little Ricky that it's making me nervous.

Dad comes over every evening to see the boy. On weekends he takes Rick to the park, the pool, the fair and shopping. Of course I go along but I feel like a third wheel because Dad takes complete charge.

I see a father-son relationship developing and I'm afraid when my husband returns there'll be trouble. Plesse tell me what to do. — ANONYMOUSLY WORRIED.

-:-

Dear Worried: Your child is fortunate to have an adoring grandfather who wants to spend time with him while his daddy is at war. When your husband returns he will assume the father role in due time and Grandpa will step back. Relax.

Mere Beginner

Dear Ann: I'm 14 and love children, especially babies. Being an only child, I haven't had much experience taking care of them. When I babysit it's usually for 5-year-olds and up.

A woman I sit for now is expecting a new baby in January. She already has promised me her business. I'm afraid I don't know enough about taking care of infants. Ann, but I'd like to learn. What do you suggest? — WILLING.

-:-

Dear Willing: The best way to learn to care for a new baby is by letting the mother teach you. Ask the woman if she will allow you to watch her feed and change the baby. Then ask if you can "practice" in her presence.

There are also schools and organizations such as the Red Cross which conduct "well baby clinics." Some of them will allow a conscientious sitter to attend classes when there is room to spare. Call and inquire.

Ann Landers will be glad to help you with your problems. Send them to her in care of The Review, enclosing a self-addressed, stamped envelope.

Yippie Leader Cited By Jury In Chicago Convention Riots

CHICAGO (AP)—Yippie leader Jerry Rubin reportedly was named in a true bill Tuesday charging him with solicitation to commit mob action for inciting crowds in downtown Grant Park Aug. 28 during the Democratic National Convention.

Three other men also were reportedly named by the Cook County Grand Jury on charges ranging from aggravated battery to solicitation to commit mob action.

The others are Benjamin Ortiz, 20, of Camden, N.J.; David Lee Edmundson, 18, of Birmingham., Ala., and Douglas Cox, 18, of Des Moines, Iowa. Rubin lives in New York City.

In another action stemming from the convention, the leader of a motorcycle gang, "The Headhunters," was arrested in connection with an alleged plot to dynamite a baseball diamond at Lincoln Park.

Charles W. Lucas, 29, of Riverdale, Ill., was taken into custody at O'Hara International Airport. He was charged with theft and storage of 1,250 pounds of dynamite allegedly stolen in Ohio and transported to Chicago.

Authorities said Lucas fled to New Orleans Sept. 16 after learning that a warrant for his arrest was issued in Chicago Sept. 13 in connection with the alleged dynamite plot.

Lincoln Park was the scene of several disturbances prior to and during the Democratic convention in August.

A second member of the "Headhunters," Arthur Lee Caldwell, 23, was returned to Chicago Monday from Mansfield, Ohio. He also is charged with transporting and secreting dynamite.

Both Lucas and Caldwell are held under $85,000 bond pending court appearances.

Warrants for the two men charge Caldwell, of 448 E. 4th St., Ashland, Ohio, helped transport and store the dynamite, knowing that Lucas "intended to use it to commit aggravated battery or murder."

Authorities said the dynamite was stolen in Ohio, between Aug. 7 and Aug. 17. It was found Sept. 6 in Chicago in a car in a garage on the South Side which police said had been rented by Lucas.

Out Of The Air

By HAL HUMPHREY

Cronkite Sounds Off On Controls

HOLLYWOOD — Veteran newsman Walter Cronkite of CBS believes TV should "go on the offensive."

Hal Humphrey

"I don't believe," he says, "in this business about the air belonging to the public. TV and radio stations should no longer be under federal control or licensed by anybody, including the FCC. When there were only a few channels available, I agree that licensing was necessary, but this is no longer true. I'll bet we have more TV stations now than newspapers."

-:-

CRONKITE originally popped off on this subject in a speech a few weeks ago at an Ohio university, but hardly any comment was made about it in any quarter, including his own medium.

'Some people have argued with me that since there are only three major networks, we have to have control of some kind. But there is no federal control over newspapers and they are served by only two press associations.

"And," Cronkite adds, "there's hardly a town in the United States without more than one radio or TV station. Either FM or AM radio, or VHF or UHF TV, can be started by anyone with the finances. That gives radio and TV as much free speech as newspapers claim."

-:-

TO HAVE RADIO and TV licensed now and under regulations like "equal time" is not being honest, according to Cronkite.

"For example, the liberals now can tell Southern broadcasters they've got to give every side a voice or lose their license, but that's by whose tenents?"

In other words, Cronkite believes broadcasters are being discriminated against, that they now should have the same freedom as the press and that the idea of the public owning the airwaves is an obsolete philosophy.

This is quite a revolutionary stand for Cronkite — or anyone else in communications — to take, so no one might well ask why there has not been more comment about it — both pro and con.

FIRST OF ALL, as Cronkite himself will admit, most TV and radio station owners are not so strongly against government control as they sometimes profess. They complain when the FCC begins to meddle in things like the number of commercials running, but through their Washington lobby, which is a strong one, they usually are able to quash any FCC edict pinching them too hard.

A few years ago, in fact, the House of Representatives did pass a law forbidding the FCC to regulate the number and time for commercials.

Meanwhile, there are instances when the commercial broadcasters are happy to have an FCC abroad, especially when it is regulating things like pay TV and community antenna systems which loom ogre-like as competitors to the "free" commercial setup.

-:-

IN A SPEECH just last week before radio network affiliates, NBC President Julian Goodman expressed concern over government proposals to place increasing control over programs ("particularly news programs") but at the same time he pointed out: ". . . we have no quarrel with the basic regulatory function of the government" and "we have long acknowledged the necessity of licensing broadcast stations . . ."

Being on the same side of the fence, so to speak, one might think the Messrs. Goodman and Cronkite would feel the same way about government licensing of broadcasters.

The fact that they don't proves only that each man has a different definition of what the Establishment is, and whom and what it's working for.

-:-

ACTUALLY, the networks (which aren't licensed by the FCC) have been inconvenienced very little by government regulation. As for protecting the "public interest," the FCC has done far less than it was theoretically set up to do.

When Cronkite says broadcasters should "go on the offensive," he is right from the broadcast industry standpoint. Whether the public would benefit is questionable.

Nonlicensing of TV and radio stations might result in more democracy, or it could mean even tighter control of what the public sees and hears over the air than under our current dubious partnership between broadcasters and the government.

ANN LANDERS

Problem Of Insecurity

By Ann Landers

Dear Ann Landers: What's wrong with a person who insists on making scenes in restaurants? My brother-in-law seems to enjoy bawling out waiters, yelling at busboys — anything to get attention.

Although no one else seems to notice, he's constantly complaining that the silverware isn't clean, the glasses are cloudy, the table linen is wrinkled, the sugar is lumpy, the salt shakers don't pour freely, the service is slow, there's too much noise in the kitchen — and on and on and on.

Why would a person behave like this? — EMBARRASSED.

-:-

Dear Em: Anyone who must abuse waiters and busboys and find fault with the silver, the glasses, the linens, the salt and sugar, the linens, phathetically insecure. If and when your brother-in-law develops some self-esteem and a measure of contentment, he will not find it necessary to abuse those who are paid to serve him to prove that he's better than they are.

Doting Gramps

Dear Ann: My husband left for Vietnam one month after our son was born. My father has become so attached to little Ricky that it's making me nervous.

Dad comes over every evening to see the boy. On weekends he takes Rick to the park, the pool, the fair and shopping. Of course I go along but I feel like a third wheel because Dad takes complete charge.

I see a father-son relationship developing and I'm afraid when my husband returns there'll be trouble. Plesse tell me what to do. — ANONYMOUSLY WORRIED.

-:-

Dear Worried: Your child is fortunate to have an adoring grandfather who wants to spend time with him while his daddy is at war. When your husband returns he will assume the father role in due time and Grandpa will step back. Relax.

Mere Beginner

Dear Ann: I'm 14 and love children, especially babies. Being an only child, I haven't had much experience taking care of them. When I babysit it's usually for 5-year-olds and up.

A woman I sit for now is expecting a new baby in January. She already has promised me her business. I'm afraid I don't know enough about taking care of infants. Ann, but I'd like to learn. What do you suggest? — WILLING.

-:-

Dear Willing: The best way to learn to care for a new baby is by letting the mother teach you. Ask the woman if she will allow you to watch her feed and change the baby. Then ask if you can "practice" in her presence.

There are also schools and organizations such as the Red Cross which conduct "well baby clinics." Some of them will allow a conscientious sitter to attend classes when there is room to spare. Call and inquire.

Ann Landers will be glad to help you with your problems. Send them to her in care of The Review, enclosing a self-addressed, stamped envelope.

Yippie Leader Cited By Jury In Chicago Convention Riots

CHICAGO (AP)—Yippie leader Jerry Rubin reportedly was named in a true bill Tuesday charging him with solicitation to commit mob action for inciting crowds in downtown Grant Park Aug. 28 during the Democratic National Convention.

Three other men also were reportedly named by the Cook County Grand Jury on charges ranging from aggravated battery to solicitation to commit mob action.

The others are Benjamin Ortiz, 20, of Camden, N.J.; David Lee Edmundson, 18, of Birmingham., Ala., and Douglas Cox, 18, of Des Moines, Iowa. Rubin lives in New York City.

In another action stemming from the convention, the leader of a motorcycle gang, "The Headhunters," was arrested in connection with an alleged plot to dynamite a baseball diamond at Lincoln Park.

Charles W. Lucas, 29, of Riverdale, Ill., was taken into custody at O'Hara International Airport. He was charged with theft and storage of 1,250 pounds of dynamite allegedly stolen in Ohio and transported to Chicago.

Authorities said Lucas fled to New Orleans Sept. 16 after learning that a warrant for his arrest was issued in Chicago Sept. 13 in connection with the alleged dynamite plot.

Lincoln Park was the scene of several disturbances prior to and during the Democratic convention in August.

A second member of the "Headhunters," Arthur Lee Caldwell, 23, was returned to Chicago Monday from Mansfield, Ohio. He also is charged with transporting and secreting dynamite.

Both Lucas and Caldwell are held under $85,000 bond pending court appearances.

Warrants for the two men charge Caldwell, of 448 E. 4th St., Ashland, Ohio, helped transport and store the dynamite, knowing that Lucas "intended to use it to commit aggravated battery or murder."

Authorities said the dynamite was stolen in Ohio, between Aug. 7 and Aug. 17. It was found Sept. 6 in Chicago in a car in a garage on the South Side which police said had been rented by Lucas.

Next Move Up To Hanoi, HHH Claims

PHILADELPHIA (AP) — Vice President Hubert H. Humphrey says there is a "new level of diplomatic activity" taking place over the Vietnam war—and "the next move is up to Hanoi."

The Democratic presidential candidate's cautiously-worded remarks came as Gen. Creighton W. Abrams, U.S. commander in Vietnam, flew to Washington Tuesday for a secret meeting with President Johnson and his top advisers.

But if Humphrey knew more than his questioners about the meeting, or the latest possible moves toward peace, he did not let on. Asked in a Philadelphia television interview whether a peace move might take place before Tuesday's election, he replied: "I just don't know, and I'm not really in a position to tell you if I knew."

"I think there has been something going on," Humphrey said as he wound up a long day of campaigning across vote-rich Pennsylvania.

"There's been a new level of diplomatic activity. As I sense it. I think it is up to Hanoi," he said.

If the current flurry is not successful, Humphrey vowed again in Philadelphia that if elected, "I will make peace in Vietnam."

Addressing a $100-a-plate fund-raising dinner, he said he is "hopeful that that cruel war will end, and ends soon—that the Paris talks will succeed. It would be imprudent to say more about them tonight. But I will say this: The man who is our President now is retiring. On Jan. 20, I will be my own president. I will make peace in Vietnam—and I will make it my own way."

Fall From Horse Hurts Area Girl

An area girl injured in a fall from a horse was one of five treated at City Hospital Tuesday and released.

Robin Haun, daughter of Lawrence Haun of Box 98, Chester, received contusions of the scalp when she fell from a horse.

Others treated were Eugene Beaver of 8th Ave., LaCroft, a contusion of the left foot on a piece of heavy iron; Albert Shugart of Weirton, laceration of the scalp on an air conditioner at a laundromat; James Hicks of Lisbon RD 2, employed at the Parsons Coal Co., a contusion of the right arm at work when he was struck by a 100-pound bag of salt, and Crystal Jackson, daughter of Everett Jackson of Chester, RD 1, a lacerated right eyebrow in a fall.

Man Awaits Sentencing

LISBON — William James Irwin, 23, of 81 Williamson Ave., Youngstown, is in the County Jail here awaiting sentencing on conviction of assault with a dangerous weapon.

Found guilty Tuesday noon by a Common Pleas Court jury, Irwin indicated he would not file a motion for a new trial. He asked the court to defer sentencing for a few days.

Judge Raymond S. Buzzard granted the request and ordered Irwin returned to the County Jail, where he has been held in lieu of bond since his arrest in May.

The jury found that Irwin fired a pistol and wounded Ronald Bailey, 20, of 640 Henry Ave., Wellsville, last May 5 on 25th St. Heights, Wellsville.

Irwin was indicted on a second count in the shooting of Pamela Lacey, 19, of McCoy Ave., East Liverpool. No disposition has been made of that case.

The shootings climaxed an argument between two carloads of young people. Irwin testified he shot in self-defense.

LaSalle, Bonnies, Florida St. Put On Probation By NCAA

★ ★ ★ ★ ★ ★

Tourneys Out

ST. LOUIS (AP)—St. Bonaventure, ranked third in the 1968 Associated Press basketball poll, LaSalle and Florida State have been placed on probation by the National Collegiate Athletic Association's policy council for rules infractions.

The probation bars them from postseason games—LaSalle for two years, Florida State and St. Bonaventure for one year.

The disciplinary action was announced Tuesday by Arthur J. Bergstrom, assistant executive director of the NCAA Council shortly after the council opened a three day meeting.

St. Bonaventure ran up a 23-game winning streak until beaten by North Carolina in the NCAA Eastern regional semifinals at Raleigh last spring.

LaSalle reached the NCAA championships at College Park, Md., before bowing to Columbia.

There was no immediate comment from coaches or officials of the schools involved.

However, Jim Harding, who was coach at LaSalle when some of the infractions occurred, admitted violation of rules in regard to scholarships. Harding now is with the Minnesota Pipers of the American Basketball Association.

Bergstrom said the LaSalle coaching staff was guilty of terminating an athletic scholarship for poor performance and threatening to repeat the action in other cases.

LaSalle's freshman coach also awarded token cash prizes to outstanding athletes, in contravention of NCAA rules, Bergstrom said, and it was found that several players holding down off-campus jobs were being paid for hours they did not work.

St. Bonaventure was penalized for giving a basketball prospect an expense-paid tour to the NCAA regional tourney at Raleigh, N.C., Bergstrom said. The school also housed and fed several of the prospect's friends during the tourney.

Florida State, highly ranked in the Southeast, was found guilty of organizing and conducting early practice sessions last spring for the benefit of prospective team members.

The school's coaches also conducted out of season practices which players, according to Bergstrom, considered mandatory. The coaches further broke NCAA rules by bringing two prospects to Panama City, Fla., on a sight-seeing tour at no cost to the athletes.

Bergstrom said at least one LaSalle athlete was told to withhold information from the NCAA.

In Minneapolis, Harding told The Associated Press: "I did remove the scholarship of a boy named Fern Scott when he quit the squad. I did tell the squad after a poor game they would either have to play ball or their scholarships would go."

"But when we did find out that NCAA rules prevented this we gave Scott his scholarship back and didn't remove any if the scholarships," he added.

Bergstrom commented: "When the coach influenced the committee to terminate a student's scholarship, he was usurping rights that didn't belong to him. A coach cannot threaten to terminate or terminate a financial aid contract."

Bulls Survive Celtic Rally

By The Associated Press

The Boston Celtics put on one of their patented rallies and impressed the Chicago Bulls—but they didn't beat them.

Boston, trailing 60-40 at halftime, exploded to outscore Chicago 36-11 in the third period. But the Bulls fought back and won 103-97 in the second half of a National Basketball Association doubleheader Tuesday night in New York.

The New York Knickerbockers beat San Francisco 110-97 in the second game of the doubleheader. Baltimore trounced Milwaukee 129-112 and Los Angeles edged Atlanta 125-124 in the only other NBA games.

Clem Haskins and Tom Boerwinkle, 7-foot rookie center from Tennessee, led Chicago back from apparent defeat.

Haskins scored four straight points to put the Bulls ahead 93-92. Then after Boston tied it, Chicago went ahead for good, 97-93, on two foul shots by Jerry Sloan and a follow-up by Boerwinkle, who grabbed some key rebounds and made a crucial interception in the final minutes.

Flynn Robinson was high for Chicago with 22 points, and Sloan got 20. Boerwinkle added 19 and snared 19 rebounds. Bill Russell led Boston with 17 points and 24 rebounds.

A balanced attack, led by Cazzie Russell and Dick Barnett, and a tough defense paced New York over San Francisco. The Knicks scored the first five points and never trailed.

Russell finished with 24 points and Barnett with 20. Rudy LaRusso scored 23 and Nate Thurmond 21 for San Francisco.

Kevin Loughery collected 29 points, Earl Monroe 25 and Ray Scott 22 for Baltimore as the Bullets breezed past Milwaukee. Fred Hetzel and Jon McGlocklin each hit 21 for Milwaukee.

Elgin Baylor's jump shot in the last second gave Los Angeles its uphill squeaker over Atlanta. The Lakers led only briefly in the opening moments of the game, and trailed by 17 points in the first half.

Baylor topped Los Angeles with 28 points but it was rookie Bill Hewitt's five baskets in the final four minutes that kept the Lakers in contention.

Zelmo Beaty was high for the Hawks with 31 points while Walt Hazzard hit on nine of 14 shots and tallied 23 points.

Reed Reprimands Hayes For Roughing Charges

CHICAGO AP)—Coach Woody Hayes of the second-ranked Ohio State Buckeyes drew the ire Tuesday of Big Ten Commissioner Bill Reed.

Reed, back in his office after attending the Olympics in Mexico City, responded to Hayes' inference last week that dirty play is not being called by officials in the conference.

Hayes contended that his sophomore quarterback, Rex Kern, was being unduly knocked around. He sent a film clip to Reed of Kern being encountered by a Northwestern player and declared publicly that "the officials should take charge — a player who deliberately hits a passer after he has released the ball should be kicked out of the game."

Coach Alex Agase said Hayes' action was impulsive, unjustified and unfair.

Reed told Chicago football writers Tuesday that the film clip was received "but there was not one word from Ohio State accompanying it."

Reed said that there hasn't been much heard from Hayes in several years but now that he is winning it's different.

"It reminds me of what Winston Churchill once said about Field Marshall Montgomery," said Reed. "He is indomitable in defeat and insufferable in victory.'"

"There is sufficient proof that Hayes' purpose was not constructive," Reed continued. "It was altogether negative in that we have not heard one word directly from him."

Asked if he had said anything to Hayes about the matter, Reed said, "No comment."

Bellaire St. John's should be favored over East Liverpool this week, at least in the eyes of the Ohio coaches who vote in the UPI poll.

The Irish, unbeaten in eight games, are ranked 18th in the state, with 25 points. The Potters have received 12 votes, good for a tie for 27th. Neither team is mentioned in the Top 20 issued by the AP.

The polls this week are generally the same, though Massillon is still in the UPI Top 10. Wintersville, ninth by AP, is only 23rd by UPI. Other area schools mentioned in the UPI rankings are Youngstown Chaney, tied for 35th and Steubenville and Youngstown Ursuline, tied for 46th.

PHIL WASHINGTON, the 6-8 starting center for the Duquesne basketball team last season, has been declared ineligible for the first semester of this year due to scholastic problems, but it's doubtful if the Dukes will miss him. Washington would have had trouble in keeping his job in any case, with the 6-9 Nelson twins, Barry and Garry, coming up from Al Bailey's unbeaten frosh team. With sophomore Jarrett Durham of Aliquippa tagged as another Willie Somerset, with sophomore Steve McHugh the slickest "little man" this side of Calvin Murphy, and with three of last year's starters returning besides Washington, big things are expected for the Dukes in 1968-69.

ALL SPORTSWRITERS think they are faced with tough interviews. For instance, neither Bob McNea nor Clint McConnell is apt to be overly loquacious following a ball game. But at least they speak English. Consider the problems at the Olympic Games as documented by Joe Falls of the Detroit Free Press.

A group of reporters from various countries were to interview a female Hungarian javelin thrower. The first question was asked by a Frenchman, and translated into Hungarian by an interpreter. When the question was answered, the question and answer were translated into several languages, including English. The question turned out to be: "What do you like to do in your spare time at home?", and the answer came out "My cousin's name is Alfred and he is a teacher at the university."

Hosket Due To Sign

NEW YORK (AP)—The New York Knickerbockers of the National Basketball Association called a press conference for this afternoon, apparently to announce the signing of Olympian Bill Hosket of Ohio State.

Broken Leg Sidelines Rich Rose

The Southern Local football team suffered a jolt when it was discovered that Rich Rose, star running back, suffered a broken leg against Beaver Local and will be out for the remainder of the season.

The injury was first thought to be a pinched nerve, but it was later found to be a slight fracture of the tibia, or shin bone.

Rose was the leading scorer in the area, amassing 128 points in five games. Hampered by another injury, he went scoreless the last two contests, both lost by the Indians.

Another player out for the season is split end Ron Cornell of Oak Glen, who suffered a broken wrist in the loss to Allegany (Md.)

Houston, Kansas, OSU Picked As Winners

By DICK COUCH
Associated Press Sports Writer

NEW YORK (AP)—It seems this fumbling pigskin prophet is the only guy on the offensive platoon who hasn't run to daylight yet. After last week's 40-18-1 mark the season record stands at 253-90-12—a backsliding. 713 pace.

We're shaking up our game plan this time around and here are the picks:

Kansas over Colorado: The Jayhawks keep coming back with the same game plan every week ... six or seven touchdowns and a cloud of prairie dust.

Houston over Georgia: The Bulldogs should take a big bite out of Houston's 38 points per-game average ... but not enough to cage the Cougars.

Ohio State over Michigan State: The Spartans used up a season's quota of goal line stands upseting Notre Dame last week.

Penn State over Army: What's in a name? Ask the Cadets after they've tangled with State's Steve Smear for 60 minutes.

Tensessee over UCLA: Tennessee's magic carpet ... the new synthetic turf at Neyland Stadium ... has tripped up better teams than the Gary Beban-less Bruins.

Texas over Southern Methodist: Chuck Hixson, SMU's slinging sophomore, won't have enough rope to lasso the leggy Longhorns.

California over Washington: California's dreaming about Roses but its defense is wide awake. The Bears have given up just four TDs in six games.

East—Notre Dame over Navy at Philadelphia; Syracuse over Holy Cross; Harvard over Pennsylvania; Yale over Dartmouth; Princeton over Brown; Cornell over Columbia.

South—Alabama over Mississippi State; Auburn over Florida; Georgia Tech over Duke; West Virginia over Kentucky; Louisiana State over Mississippi; Vanderbilt over Tulane; North Carolina State over Clemson; Wake Forest over Maryland; Miami, Fla. over Pittsburgh; Florida State over Virginia Tech; Virginia over South Carolina.

Midwest—Purdue over Illinois; Michigan over Northwestern; Minnesota over Iowa; Indiana over Wisconsin; Oklahoma over Kansas State; Missouri over Oklahoma State; Nebraska over Iowa State; Bowling Green over Marshall; Dayton over Xavier; Ohio University over Western Michigan; Miami, Ohio over Toledo.

Southwest—Arkansas over Texas A&M; Texas Christian over Baylor; Texas Tech over Rice; North Texas State over Cincinnati; Memphis State over Tulsa.

Far West—Southern California over Oregon; Stanford over Oregon State; Arizona over Washington State; Air Force over North Carolina; Arizona State over New Mexico; Utah over Brigham Young; Wyoming over Colorado State; West Texas State over New Mexico State; Pacific over San Jose State.

McNeil, Starr, Sayers Lead NFL Stats

NEW YORK (AP) — Clifton McNeil, the Cleveland castoff who found a new home at San Francisco, is making a runaway of the pass catching race in the National Football League.

At the halfway mark in the race, the speedy flanker has caught 43 passes for 584 yards, an average of 13.6 and has scored four touchdowns. His closest competitor, Charley Taylor of Washington, the champ for the last two years, has caught only 31 passes.

Bart Starr's passing display against Dallas earned the Green Bay quarterback the lead in passing. Starr has a 65.5 percentage of completions, 13 touchdown passes, 6.0 percentage of interceptions and an 10.01 average gain.

Gale Sayers moved back out front in the rushing race. The Chicago Bears' halfback has run for 619 yards on 103 carries, a six-yard average.

Bill Brown of Minnesota retained the scoring lead with 10 touchdowns for 60 points.

LaSalle, Bonnies, Florida St. Put On Probation By NCAA

ST. LOUIS (AP)—St. Bonaventure, ranked third in the 1968 Associated Press basketball poll, LaSalle and Florida State have been placed on probation by the National Collegiate Athletic Association's policy council for rules infractions.

The probation bars them from postseason games—LaSalle for two years, Florida State and St. Bonaventure for one year.

The disciplinary action was announced Tuesday by Arthur J. Bergstrom, assistant executive director of the NCAA Council shortly after the council opened a three day meeting.

St. Bonaventure ran up a 23-game winning streak until beaten by North Carolina in the NCAA Eastern regional semifinals at Raleigh last spring.

LaSalle reached the NCAA championships at College Park, Md., before bowing to Columbia.

There was no immediate comment from coaches or officials of the schools involved.

However, Jim Harding, who was coach at LaSalle when some of the infractions occurred, admitted violation of rules in regard to scholarships. Harding now is with the Minnesota Pipers of the American Basketball Association.

Bergstrom said the LaSalle coaching staff was guilty of terminating an athletic scholarship for poor performance and threatening to repeat the action in other cases.

LaSalle's freshman coach also awarded token cash prizes to outstanding athletes, in contravention of NCAA rules, Bergstrom said, and it was found that several players holding down off-campus jobs were being paid for hours they did not work.

St. Bonaventure was penalized for giving a basketball prospect an expense-paid tour to the NCAA regional tourney at Raleigh, N.C., Bergstrom said. The school also housed and fed several of the prospect's friends during the tourney.

Florida State, highly ranked in the Southeast, was found guilty of organizing and conducting early practice sessions last spring for the benefit of prospective team members.

The school's coaches also conducted out of season practices which players, according to Bergstrom, considered mandatory. The coaches further broke NCAA rules by bringing two prospects to Panama City, Fla., on a sight-seeing tour at no cost to the athletes.

Bergstrom said at least one LaSalle athlete was told to withhold information from the NCAA.

In Minneapolis, Harding told The Associated Press: "I did remove the scholarship of a boy named Fern Scott when he quit the squad. I did tell the squad after a poor game they would either have to play ball or their scholarships would go."

"But when we did find out that NCAA rules prevented this we gave Scott his scholarship back and didn't remove any if the scholarships," he added.

Bergstrom commented: "When the coach influenced the committee to terminate a student's scholarship, he was usurping rights that didn't belong to him. A coach cannot threaten to terminate or terminate a financial aid contract."

Bulls Survive Celtic Rally

By The Associated Press

The Boston Celtics put on one of their patented rallies and impressed the Chicago Bulls—but they didn't beat them.

Boston, trailing 60-40 at halftime, exploded to outscore Chicago 36-11 in the third period. But the Bulls fought back and won 103-97 in the second half of a National Basketball Association doubleheader Tuesday night in New York.

The New York Knickerbockers beat San Francisco 110-97 in the second game of the doubleheader. Baltimore trounced Milwaukee 129-112 and Los Angeles edged Atlanta 125-124 in the only other NBA games.

Clem Haskins and Tom Boerwinkle, 7-foot rookie center from Tennessee, led Chicago back from apparent defeat.

Haskins scored four straight points to put the Bulls ahead 93-92. Then after Boston tied it, Chicago went ahead for good, 97-93, on two foul shots by Jerry Sloan and a follow-up by Boerwinkle, who grabbed some key rebounds and made a crucial interception in the final minutes.

Flynn Robinson was high for Chicago with 22 points, and Sloan got 20. Boerwinkle added 19 and snared 19 rebounds. Bill Russell led Boston with 17 points and 24 rebounds.

A balanced attack, led by Cazzie Russell and Dick Barnett, and a tough defense paced New York over San Francisco. The Knicks scored the first five points and never trailed.

Russell finished with 24 points and Barnett with 20. Rudy LaRusso scored 23 and Nate Thurmond 21 for San Francisco.

Kevin Loughery collected 29 points, Earl Monroe 25 and Ray Scott 22 for Baltimore as the Bullets breezed past Milwaukee. Fred Hetzel and Jon McGlocklin each hit 21 for Milwaukee.

Elgin Baylor's jump shot in the last second gave Los Angeles its uphill squeaker over Atlanta. The Lakers led only briefly in the opening moments of the game, and trailed by 17 points in the first half.

Baylor topped Los Angeles with 28 points but it was rookie Bill Hewitt's five baskets in the final four minutes that kept the Lakers in contention.

Zelmo Beaty was high for the Hawks with 31 points while Walt Hazzard hit on nine of 14 shots and tallied 23 points.

Reed Reprimands Hayes For Roughing Charges

CHICAGO AP)—Coach Woody Hayes of the second-ranked Ohio State Buckeyes drew the ire Tuesday of Big Ten Commissioner Bill Reed.

Reed, back in his office after attending the Olympics in Mexico City, responded to Hayes' inference last week that dirty play is not being called by officials in the conference.

Hayes contended that his sophomore quarterback, Rex Kern, was being unduly knocked around. He sent a film clip to Reed of Kern being encountered by a Northwestern player and declared publicly that "the officials should take charge — a player who deliberately hits a passer after he has released the ball should be kicked out of the game."

Coach Alex Agase said Hayes' action was impulsive, unjustified and unfair.

Reed told Chicago football writers Tuesday that the film clip was received "but there was not one word from Ohio State accompanying it."

Reed said that there hasn't been much heard from Hayes in several years but now that he is winning it's different.

"It reminds me of what Winston Churchill once said about Field Marshall Montgomery," said Reed. "He is indomitable in defeat and insufferable in victory.' "

"There is sufficient proof that Hayes' purpose was not constructive," Reed continued. "It was altogether negative in that we have not heard one word directly from him."

Asked if he had said anything to Hayes about the matter, Reed said, "No comment."

W. Michigan May Ambush Ohio U. 11

By HAL PARIS
Associated Press Sports Writer

COLUMBUS, Ohio (AP) — Coach Bill Hess takes his Ohio University football juggernaut to Michigan's chilly climate Saturday for a duel with old pal Bill Doolittle.

And Hess hopes that the constant smile Doolittle wears will not lure his unsuspecting Bobcats into a Western Michigan ambush.

All-winning Ohio, ranked 19th in the nation with a 6-0 record and a 4-0 Mid-American Conference mark, can clinch at least a share of the title and a trip to the Tangerine Bowl with a victory at Kalamazoo.

But Western has always been tough for the Bobcats, who haven't won at Kalamazoo since 1962.

Hess and Doolittle are rivals who have always been good friends. Hess was head coach and Doolittle his assistant when the two worked together at Grandview High School near Columbus in 1949.

"I know Bill from years ago and you can rest assured it's going to be mighty interesting Saturday," Hess said.

"This is a real important game for us. They have shifted a lot of personnel and that makes them a better football team. If they put it together, it's going to be tough for us."

The Broncos are fifth in the MAC with a 2-3 log and are 3-4 on the season.

When the two Bills get together, it's always a match of wits. Four years ago, Doolittle changed both his offensive and defensive alignments and walked off with a 13-8 upset.

The multitalented Bobcats will have to check the running thrusts of Ken Woodside and Tim Majerle who have combined for over 600 yards. Quarterback Mark Bordeaux has thrown for another 674 which makes the Bronco attack formidable.

Still, Hess has quarterback Cleve Bryant and split end Todd Snyder, easily the best 1-2 offensive punch in the league.

In another headliner, Miami (4-1) visits Toledo (3-1-1) with last ditch title aspirations hanging in the balance.

Bowling Green (2-1-1) and still nursing some hopes for a championship, catches battered, bewildered and bruised Marshall (0-4) in what should be a tuneup for a Nov. 9 clash with Ohio.

Outside the league, insept Kent State (0-7 on the season) journeys to Louisville still looking for that elusive first victory.

The way it looks from here:

Ohio U. 42, Western 14; Miami 20, Toledo 14; Bowling Green 27, Marshall 0; Louisville 14, Kent 7.

Hepatitis Hospitalizes Mollenkopf

LAFAYETTE, Ind. (AP) — The liver ailment that has sent Coach Jack Mollenkopf of No. 6 ranked Purdue to the hospital is "not a real severe case," his wife said.

Mrs. Mollenkopf took her husband, who will be 63 Nov. 24, to Home Hospital here Tuesday after tests showed he had infectious hepatitis.

Dr. Loyal W. Combs, team physician and director of the Purdue Health Service, said Mollenkopf would not be able to resume his duties for at least three weeks.

Bob DeMoss, a Purdue quarterback star in the late 1940s, was named acting head coach. DeMoss is in his 19th season as a Purdue coach.

Hayward Upsets Griffith On Contested Decision

By RALPH BERNSTEIN
Associated Press Sports Writer

PHILADELPHIA (AP) — Stanley "Kitten" Hayward won an upset split 10-round decision over former middleweight champion Emile Griffith Tuesday night. Griffith and his manager, Gil Clancy, screamed they were robbed and would appeal the verdict to the Pennsylvania State Athletic Commission.

Referee Zack Clayton and judge Lou Tress each scored the fight 47-46 for Hayward, of Philadelphia. Judge Jack Styles had it 47-44 for Griffith. The Associated Press had it 48-43 for Griffith, who twice has held the middleweight title and was welterweight champ.

The bone of contention was Clayton's scoring of the 10th round. He carded it 5-5 under the Pennsylvania scoring system of five points must for the winner of a round.

Griffith, however, appeared to win the final round handily. In fact, he had Hayward staggering as the bell ended the fiercely waged fight.

Hayward admitted he had conceded the last round to the bustling New Yorker.

"I was not fighting my usual fight in the 10th round," he said, "because my trainer told me I had won the first six rounds and all I had to do to win was finish."

Griffith's manager also disclosed he had told the commission Tuesday afternoon about receiving an anonymous telephone call warning him, "Hayward will get help from the officials. I made the commission aware of this and was assured it would use its best officials."

Griffith, who ended Gypsy Joe Harris's 24 fight unbeaten streak here last August, was building for a crack at Nino Benvenuti, who took away his middleweight title last March.

Griffith weighed 156 and Hayward, the sixth ranking welterweight, 155, for the bout before 4,375 fans at the Spectrum.

N. Orleans Hands Oaks First ABA Loss Of Year

By The Associated Press

All of a sudden, the runaway has turned into a race in the American Basketball Association's Western Division.

New Orleans added a little suspense to the championship race by handing Oakland its first loss in four games Tuesday night, 124-119, despite a 39-point showing by the Oaks' fabulous Rick Barry.

The victory, avenging New Orleans' only loss in three games, put the Bucks only a half game behind Oakland.

James Jones paced New Orleans with 26 points.

Meanwhile, Minnesota got a 34-point showing from Connie Hawkins and kept its record perfect with a 116-108 conquest of Miami, and New York rallied in the last half to whip Denver 108-89.

Minnesota, 2-0 and leading the Eastern Division, had to stage a last half rally to hand Miami its third straight setback. The Floridians grabbed a 79-78 lead with 2:40 left in the third quarter before Minnesota outscored them 11-2 for an 89-81 lead it never relinquished.

Chico Vaughn scored 23 points for the Pipers. Willie Murrell led Miami with 24.

New York rode some hot third-quarter shooting by Stu Johnson to its victory over Denver. The Nets trailed 50-48 at halftime, but Johnson fired in 12 of his 15 points during the third quarter when New York outscored Denver 33-24 to take an 81-74 command.

Willie Worsley led New York's scoring with 23 points, while Bob Verga had 24 for the Rockets.

California's Augustine Top Lineman

By The Associated Press

Irby "Lucky" Augustine, a 6-foot, 210-pound defensive end, spearheaded a brilliant California defense that prevented Syracuse from scoring a point for the first time in 33 games.

In addition to making 10 solo tackles in the 43-0 rout, the 20-year-old junior also recovered a fumble that led to a field goal, intercepted a pass and returned it 21 yards to the Orange 18, setting up a touchdown.

For that bit of work, Augustine today was named The Associated Press' college Lineman of the Week.

There were several other outstanding showings by linemen over the weekend, including:

—Chuck Nye of Purdue, who intercepted two passes, recovered a fumble, made 10 solo tackles and assisted on six others in the Boilermakers' 44-14 trouncing of Iowa.

—Mike Montler, Colorado tackle who played a key role in the Buffs' 41-27 upset of Oklahoma.

—Alex Dees, Memphis State end who had 16 unassisted tackles and four assists in a 29-7 victory over Southern Mississippi.

—Tim Christian, Auburn offensive end who snared seven passes for 151 yards and two touchdowns in a 31-6 conquest of Miami, Fla.

—Rich Saul, Michigan State linebacker who had six tackles and 14 assists in a 21-17 upset of Notre Dame.

Jets, Chiefs Top Rushing Defenders

NEW YORK (AP) — Running against the New York Jets and Kansas City Chiefs is getting their American Football League rivals nowhere fast.

New York has yielded 73.1 yards per game on the ground. The Chiefs' defensive unit has allowed 83.5 per contest.

QB Dawson AP College Back Of Week

By AL DEN BESTE
Associated Press Sports Writer

ALBUQUERQUE, N.M. (AP) — Brooks Dawson of Texas-El Paso, whose fourth-quarter performance last weekend earned him Associated Press College Football Back of the Week honors, says, "It was the first time all year I felt like I was playing up to my game."

The senior quarterback was on the bench for three quarters against Brigham Young last weekend. He came onto the field with his team 22 points behind and led the Miners to a 31-25 victory.

Dawson completed 17 of 24 passes for 304 yards and three touchdowns in his stranger-than-fiction performance.

He had been benched for subpar play, but junior quarterback Bob Stewart was continually getting thrown for losses before the senior went back into the game.

Dawson played as second string quarterback at UTEP for two years in the shadow of Billy Stevens, one of the school's all-time greats.

This year, he was expected to guide the Miners to contention in the Western Athletic Conference. But three straight losses stopped those hopes and led to Dawson's benching.

The crowd of 17,607 which jammed Peden Stadium Oct. 5 to see host Ohio University down Toledo, 40-31, was the fifth largest in the school's history. The facility seats 17,550.

W. Michigan May Ambush Ohio U. 11

By HAL PARIS
Associated Press Sports Writer

COLUMBUS, Ohio (AP) — Coach Bill Hess takes his Ohio University football juggernaut to Michigan's chilly climate Saturday for a duel with old pal Bill Doolittle.

And Hess hopes that the constant smile Doolittle wears will not lure his unsuspecting Bobcats into a Western Michigan ambush.

All-winning Ohio, ranked 19th in the nation with a 6-0 record and a 4-0 Mid-American Conference mark, can clinch at least a share of the title and a trip to the Tangerine Bowl with a victory at Kalamazoo.

But Western has always been tough for the Bobcats, who haven't won at Kalamazoo since 1962.

Hess and Doolittle are rivals who have always been good friends. Hess was head coach and Doolittle his assistant when the two worked together at Grandview High School near Columbus in 1949.

"I know Bill from years ago and you can rest assured it's going to be mighty interesting Saturday," Hess said.

"This is a real important game for us. They have shifted a lot of personnel and that makes them a better football team. If they put it together, it's going to be tough for us."

The Broncos are fifth in the MAC with a 2-3 log and are 3-4 on the season.

When the two Bills get together, it's always a match of wits. Four years ago, Doolittle changed both his offensive and defensive alignments and walked off with a 13-8 upset.

The multitalented Bobcats will have to check the running thrusts of Ken Woodside and Tim Majerle who have combined for over 600 yards. Quarterback Mark Bordeaux has thrown for another 674 which makes the Bronco attack formidable.

Still, Hess has quarterback Cleve Bryant and split end Todd Snyder, easily the best 1-2 offensive punch in the league.

In another headliner, Miami (4-1) visits Toledo (3-1-1) with last ditch title aspirations hanging in the balance.

Bowling Green (2-1-1) and still nursing some hopes for a championship, catches battered, bewildered and bruised Marshall (0-4) in what should be a tuneup for a Nov. 9 clash with Ohio.

Outside the league, insept Kent State (0-7 on the season) journeys to Louisville still looking for that elusive first victory.

The way it looks from here:

Ohio U. 42, Western 14; Miami 20, Toledo 14; Bowling Green 27, Marshall 0; Louisville 14, Kent 7.

NEW YORK AP)—Two Ohio college quarterbacks are among the top 10 players in total offense in the latest NCAA major college football statistics.

Greg Cook of Cincinnati has accounted for 1,703 yards to rank second to the national leader, Chuck Hixson of SMU who had 1,847 yards. Cleve Bryant of Ohio University is seventh, with 1,315.

KATHY KUSNER

Woman Rider Licensed In Maryland

LAUREL, Md. (AP) — Kathy Kusner, petite 27-year-old Olympic equestrienne, has become the first woman ever to be licensed to race horses on the flat at a major track where betting is legal.

Miss Kusner, a 5-foot-4, 103-pound show ring rider from Monkton, Md., was awarded her license Tuesday by the Maryland Racing Commission on orders from a Circuit Court judge who ruled she had been denied a license twice before because of her sex.

Miss Kusner said she has piror commitments which would keep her from riding at Laurel Race Course until after Nov. 26.

"Kathy, the chief concern of this commission is for your safety, and the safety of the other jockeys," said D. Eldred Rinehart, commission chairman, as she handed the license to Miss Kusner.

Miss Kusner, dressed in a violet plaid dress and pink shoes, replied, "Any thought you have I want to hear them. I want to cooperate in any way possible."

The commission, in previously denying her applications, had said it found she lacked "sufficient strength to control a mount and for this reason would create hazardous racing conditions for other jockeys if her application were granted."

She went to court after the second denial and on Sept. 26, Circuit Judge Ernest A. Loveless ordered the commission to license her.

Decision Delayed In Duquesne Co. Contempt Case

PITTSBURGH (AP — An Allegheny County Court judge has delayed a decision on contempt of court charges against three Duquesne Light Co. pickets and has ordered a deputy sheriff posted at a strike-bound company subsidiary for protection.

Judge Joseph F. Weiss Jr. said he reserved a decision on the charges against the men following a confrontation between them and a company supervisor.

He said the deputy sheriff would be on duty "to insure the safety of the company personnel, the truckers, the pickets, and the members of the public."

The International Brotherhood of Electrical Workers struck Duquesne Light Oct. 18 after rejecting a new contract offer. Negotiators have been meeting with a federal mediator, but there has been no word on progress.

Director Will Retire

CINCINNATI (AP) — Max Rudolf will retire as director of the Cincinnati Symphony Orchestra after the 1969-70 season, the position he has held since 1958.

Musuraca Takes Lead In Scoring

By scoring four touchdowns against Boardman, Jim Musuraca took over the lead in a close race for the top scoring spot on the East Liverpool football team.

Musuraca now has 48 points for the season, with Tom Chambers next at 40.

John Johnson, with a 30-yard interception return, took the lead in that department. All other leaders stayed the same. Nelson (Sonny) Clark took second in passing to Dan Cunningham, and remained second in total offense, though Cunningham widened his lead and went over the 1,000 - yard mark. Chambers gained on Clark in the rushing derby. Chambers kept the lead in pass receiving, but Musuraca narrowed the gap by catching three. Chambers moved into second ahead of Clark in kickoff returns.

In team statistics, the opponents caught the Potters in passes completed and narrowed the gap in passing yardage. The opponents went back ahead in fumbles lost. The Potters have outrushed their foes by better than 2-1.

NEW YORK AP)—Two Ohio college quarterbacks are among the top 10 players in total offense in the latest NCAA major college football statistics.

Greg Cook of Cincinnati has accounted for 1,703 yards to rank second to the national leader, Chuck Hixson of SMU who had 1,847 yards. Cleve Bryant of Ohio University is seventh, with 1,315.

KATHY KUSNER

Woman Rider Licensed In Maryland

LAUREL, Md. (AP) — Kathy Kusner, petite 27-year-old Olympic equestrienne, has become the first woman ever to be licensed to race horses on the flat at a major track where betting is legal.

Miss Kusner, a 5-foot-4, 103-pound show ring rider from Monkton, Md., was awarded her license Tuesday by the Maryland Racing Commission on orders from a Circuit Court judge who ruled she had been denied a license twice before because of her sex.

Miss Kusner said she has piror commitments which would keep her from riding at Laurel Race Course until after Nov. 26.

"Kathy, the chief concern of this commission is for your safety, and the safety of the other jockeys," said D. Eldred Rinehart, commission chairman, as she handed the license to Miss Kusner.

Miss Kusner, dressed in a violet plaid dress and pink shoes, replied, "Any thought you have I want to hear them. I want to cooperate in any way possible."

The commission, in previously denying her applications, had said it found she lacked "sufficient strength to control a mount and for this reason would create hazardous racing conditions for other jockeys if her application were granted."

She went to court after the second denial and on Sept. 26, Circuit Judge Ernest A. Loveless ordered the commission to license her.

Decision Delayed In Duquesne Co. Contempt Case

PITTSBURGH (AP) — An Allegheny County Court judge has delayed a decision on contempt of court charges against three Duquesne Light Co. pickets and has ordered a deputy sheriff posted at a strike-bound company subsidiary for protection.

Judge Joseph F. Weiss Jr. said he reserved a decision on the charges against the men following a confrontation between them and a company supervisor.

He said the deputy sheriff would be on duty "to insure the safety of the company personnel, the truckers, the pickets, and the members of the public."

The International Brotherhood of Electrical Workers struck Duquesne Light Oct. 18 after rejecting a new contract offer. Negotiators have been meeting with a federal mediator, but there has been no word on progress.

Director Will Retire

CINCINNATI (AP) — Max Rudolf will retire as director of the Cincinnati Symphony Orchestra after the 1969-70 season, the position he has held since 1958.

Traffic Lights Turned Red In Wild Chase

AKRON, Ohio (AP) — Police had traffic lights turned red in both directions Tuesday during a wild auto chase that reached speeds of 100 miles an hour and ended up in Stark County with the capture of Larry Stewart, 28.

The lights on certain streets in Akron were turned red at a central control point at the request of pursuing officers, who wanted to avoid innocent motorists being involved in a collision.

Before the chase was over, six law enforcement agencies were involved. Stewart, wanted on a burglary charge in Akron, was finally stopped north of Canton and captured at gunpoint.

No shots were fired.

Bolton-Vanik Congress Race In Ohio Tight One

CLEVELAND, Ohio (AP) — The battle in Ohio's 22nd congressional district has developed into a close race between incumbent Frances P. Bolton and congressman Charles A. Vanik of the neighboring 21st district.

At 83, the redoubtable Mrs. Bolton, a Republican who looks more like a dowager duchess than a tough political campaigner, is seeking to retain the seat she has held since 1940.

Vanik, 55, who switched to the 22nd district when the boundaries of the 21st were realigned last January, is giving Mrs. Bolton the hardest fight of her political career.

The congresswoman stoutly denies she is in danger of losing. But a recent copyrighted poll conducted by The Cleveland Plain Dealer among voters in the 22nd district showed both candidates neck and neck, with 46.7 per cent of the voters favoring Mrs. Bolton and 46.7 supporting Vanik.

Mrs. Bolton, impressive in a neat silk suit, three strings of pearls at the neck and a large mod watch on her left wrist, confines campaigning to appearances at rallies and teas. Her Democratic opponent pounds the streets in search of a hand to shake.

Vanik, a youthful looking man with a penchant for bow ties and an easy campaign style, has been in politics 30 years, 14 of them as a congressman. He says he has covered 16,000 miles campaigning in the 22nd district since he decided to run there last February.

"Every hand I shake is worth a vote," Vanik says. "But I'm careful. I never stop a man with a power mower. If the mower conks out he blames you and that is a vote lost."

A millionairess, Mrs. Bolton entered Congress 28 years ago when she was elected to fill her late husband's unexpired term.

Cornelia, Ga., has a monument to the apple.

How Can I?

By ANNE ASHLEY

Q. — How can I clean plaster casts?

A. — Swab over them with cold liquid starch, allow to dry thoroughly, then brush it off, and the dirt usually comes off with the starch, leaving the cast as clean and white as when new.

Q.—How can I brighten copper vessels that have become blackened by contact with fire?

A.—By rubbing with a mixture of table salt and lemon juice, then rinsing with tepid water.

Q. — How can I remove rain spots from velvet?

A. — By sponging with carbon tetrachloride, rubbing in one direction. My household - hints book contains much other such information on the care and cleaning of clothing and fabrics.

Q. — What is the best way to caramelize sugar?

A. — In a dry skillet in the oven. In this way, it heats from the bottom and top at the same time, caramelizing quickly and smoothly.

Q. — How can I prevent spaghetti or macaroni from sticking to the bottom of the pan in which it is cooked?

A.—By lightly greasing the inside of the pan before putting the water on to boil.

Truth-In-Lending Major Requirement

CHICAGO (AP) — Truth-in-lending is among the major requirements of the new Consumer Credit Protection Act, which was seven years in the Senate and seven months in the House.

Commerce Clearing House points out that the act covers credit advertising, wage garnishments, and extortionate credit transactions as well as the original purpose of the bill — truth-in-lending.

Retailers and lenders will have to disclose in writing "true" credit costs in terms of the simple annual interest rate charged.

Wage garnishment restrictions in the law say that some 75 per cent of a worker's take-home pay would be exempt from court action to satisfy a debt. It also forbids an employer to fire workers the first time their wages are garnisheed.

Truth-in-credit advertising require that an advertisement stating any credit provisions at all must also disclose details surrounding the credit transaction.

A group of American settlers raised the Bear flag at Sonoma and proclaimed the independent Republic of California on June 14, 1846.

Living Costs Up Only .2% In September

WASHINGTON (AP) — The government reported Tuesday the smallest monthly rise in living costs in a year, two-tenths of one per cent.

Officials said, however, that 1968 is almost certain to wind up with the largest jump in prices in 17 years.

"It is safe to say the peak of the inflationary surge is past," said Arnold Chase, assistant commissioner of the Bureau of Labor Statistics, in reporting the comparatively small September rise.

The consumer price index for the month rose to 122.2 which means it cost $12.22 in September for typical family goods and services that cost $10 in the 1957-59 period on which the index is based.

The bureau also reported that the earnings of some 45 million workers climbed to an all-time high of $110.49 per week due to a four - cent jump in average hourly earnings. It was the largest gain in two years.

This boosted the purchasing power of the average worker with three dependents to a record high, but single workers were still slightly below the 1965 peak because of their larger tax deduction.

Chase said this year's increase in consumer prices will probably total a little more than 4 per cent. That would be the largest rise since the 8 per cent jump in 1951 before Korean war price controls were imposed.

About 19,000 workers whose labor cotracts include cost-of-living clauses will receive pay raises ranging from 2 to 7 cents per hour because of increases in the government price index.

While reporting a slowdown last month in consumer price increases, the bureau reported a "disturbing" rise in prices of industrial raw materials.

The wholesale price index rose four-tenths of one per cent to 109.1.

Price hikes for clothing, housing and medical care were responsible for most of the rise in consumer prices.

Grocery prices dropped three-tenths of one per cent, but that was less than half the expected September decline.

The biggest reason for the slower rise of consumer prices was a leveling off of the recent sharp jump in home mortgage interest rates, and a drop in the prices of used cars.

Mortgage interest rates increased only three-tenths of one per cent compared with hikes of 2.3 and 4.5 per cent the previous two months. But mortgage charges were still 15.5 per cent above a year ago.

Clothing prices rose 1.6 per cent last month, medical costs rose six-tenths of one per cent and over—all housing costs were up two-tenths of a per cent.

Transportation costs dropped four-tenths of one per cent.

The rise in wholesale prices included iron and steel scrap, finished steel products, machinery, textiles and lumber.

However, preliminary October figures indicate a halt for this month in the wholesale price rise.

Bolton-Vanik Congress Race In Ohio Tight One

CLEVELAND, Ohio (AP) — The battle in Ohio's 22nd congressional district has developed into a close race between incumbent Frances P. Bolton and congressman Charles A. Vanik of the neighboring 21st district.

At 83, the redoubtable Mrs. Bolton, a Republican who looks more like a dowager duchess than a tough political campaigner, is seeking to retain the seat she has held since 1940.

Vanik, 55, who switched to the 22nd district when the boundaries of the 21st were realigned last January, is giving Mrs. Bolton the hardest fight of her political career.

The congresswoman stoutly denies she is in danger of losing. But a recent copyrighted poll conducted by The Cleveland Plain Dealer among voters in the 22nd district showed both candidates neck and neck, with 46.7 per cent of the voters favoring Mrs. Bolton and 46.7 supporting Vanik.

Mrs. Bolton, impressive in a neat silk suit, three strings of pearls at the neck and a large mod watch on her left wrist, confines campaigning to appearances at rallies and teas. Her Democratic opponent pounds the streets in search of a hand to shake.

Vanik, a youthful looking man with a penchant for bow ties and an easy campaign style, has been in politics 30 years, 14 of them as a congressman. He says he has covered 16,000 miles campaigning in the 22nd district since he decided to run there last February.

"Every hand I shake is worth a vote," Vanik says. "But I'm careful. I never stop a man with a power mower. If the mower conks out he blames you and that is a vote lost."

A millionairess, Mrs. Bolton entered Congress 28 years ago when she was elected to fill her late husband's unexpired term.

Cornelia, Ga., has a monument to the apple.

How Can I?

By ANNE ASHLEY

Q. — How can I clean plaster casts?

A. — Swab over them with cold liquid starch, allow to dry thoroughly, then brush it off, and the dirt usually comes off with the starch, leaving the cast as clean and white as when new.

Q.—How can I brighten copper vessels that have become blackened by contact with fire?

A.—By rubbing with a mixture of table salt and lemon juice, then rinsing with tepid water.

Q. — How can I remove rain spots from velvet?

A. — By sponging with carbon tetrachloride, rubbing in one direction. My household - hints book contains much other such information on the care and cleaning of clothing and fabrics.

Q. — What is the best way to caramelize sugar?

A. — In a dry skillet in the oven. In this way, it heats from the bottom and top at the same time, caramelizing quickly and smoothly.

Q. — How can I prevent spaghetti or macaroni from sticking to the bottom of the pan in which it is cooked?

A.—By lightly greasing the inside of the pan before putting the water on to boil.

Truth-In-Lending Major Requirement

CHICAGO (AP) — Truth-in-lending is among the major requirements of the new Consumer Credit Protection Act, which was seven years in the Senate and seven months in the House.

Commerce Clearing House points out that the act covers credit advertising, wage garnishments, and extortionate credit transactions as well as the original purpose of the bill — truth-in-lending.

Retailers and lenders will have to disclose in writing "true" credit costs in terms of the simple annual interest rate charged.

Wage garnishment restrictions in the law say that some 75 per cent of a worker's take-home pay would be exempt from court action to satisfy a debt. It also forbids an employer to fire workers the first time their wages are garnisheed.

Truth-in-credit advertising require that an advertisement stating any credit provisions at all must also disclose details surrounding the credit transaction.

Living Costs Up Only .2% In September

WASHINGTON (AP) — The government reported Tuesday the smallest monthly rise in living costs in a year, two-tenths of one per cent.

Officials said, however, that 1968 is almost certain to wind up with the largest jump in prices in 17 years.

"It is safe to say the peak of the inflationary surge is past," said Arnold Chase, assistant commissioner of the Bureau of Labor Statistics, in reporting the comparatively small September rise.

The consumer price index for the month rose to 122.2 which means it cost $12.22 in September for typical family goods and services that cost $10 in the 1957-59 period on which the index is based.

The bureau also reported that the earnings of some 45 million workers climbed to an all-time high of $110.49 per week due to a four - cent jump in average hourly earnings. It was the largest gain in two years.

This boosted the purchasing power of the average worker with three dependents to a record high, but single workers were still slightly below the 1965 peak because of their larger tax deduction.

Chase said this year's increase in consumer prices will probably total a little more than 4 per cent. That would be the largest rise since the 8 per cent jump in 1951 before Korean war price controls were imposed.

About 19,000 workers whose labor cotracts include cost-of-living clauses will receive pay raises ranging from 2 to 7 cents per hour because of increases in the government price index.

While reporting a slowdown last month in consumer price increases, the bureau reported a "disturbing" rise in prices of industrial raw materials.

The wholesale price index rose four-tenths of one per cent to 109.1.

Price hikes for clothing, housing and medical care were responsible for most of the rise in consumer prices.

Grocery prices dropped three-tenths of one per cent, but that was less than half the expected September decline.

The biggest reason for the slower rise of consumer prices was a leveling off of the recent sharp jump in home mortgage interest rates, and a drop in the prices of used cars.

Mortgage interest rates increased only three-tenths of one per cent compared with hikes of 2.3 and 4.5 per cent the previous two months. But mortgage charges were still 15.5 per cent above a year ago.

Clothing prices rose 1.6 per cent last month, medical costs rose six-tenths of one per cent and over—all housing costs were up two-tenths of a per cent.

Transportation costs dropped four-tenths of one per cent.

The rise in wholesale prices included iron and steel scrap, finished steel products, machinery, textiles and lumber.

However, preliminary October figures indicate a halt for this month in the wholesale price rise.

Nixon, Humphrey Set Another Visit To Ohio

By The Associated Press

The Republican and Democratic presidential candidates, apparently considering Ohio's 26 electoral votes as crucial to victory, are hitting the state at least one more time before election day next Tuesday.

Republican Richard M. Nixon arrives in Cleveland this afternoon for an 8 p. m. rally at Public Hall.

Democrat Hubert H. Humphrey campaigns in Youngstown Saturday.

Preceding Humphrey into Ohio will be his running mate, Sen. Edmund Muskie of Maine, who will be in Cincinnati tonight and addresses a rally in Cleveland Thursday.

Meanwhile, the hot contest for the U.S. Senate continued with both candidates pledging to work for a better society.

Democrat John J. Gilligan said in Centerville today that "unless the people take back control of government by demanding true representation, we will have government by the few for the few."

He said he would assure the people of true representation in Washington by establishing five fulltime district offices in Ohio, where anyone can register a "point of view, complaint or a suggestion."

Gilligan's Republican opponent, William B. Saxbe, said in Cleveland Tuesday that "the American dream can only come true" if the country's leaders understand "that progress, not politics, must be their first concern."

Saxbe hit hard at what he called "the complete failures of the Johnson-Humphrey administration" and urged voters to elect a new administration and a "responsive" Congress.

Saxbe will be on hand for the Nixon rally tonight and plans to attend a Ripon banquet there Thursday night.

Gilligan campaigns in the Cleveland and Youngstown areas Thursday.

The only confrontation of the Senate candidates comes in Cleveland at noon Friday, when they will debate before the City Club—a traditional pre-election session.

Rotary Club Sees Film On Steelers

A film, "Highlights of the Pittsburgh Steelers," was viewed by the Rotary Club at the noon luncheon Tuesday in the Travelers Hotel.

John Belshaw of Columbus, an executive with the Ohio YMCA, was also a guest.

Growing Problem

JOHANNESBURG, South Africa (AP) — Alcoholism is a growing problem here, Dr. Louis M. Freed told a symposium on the disease. He estimated there were 370,000 alcoholics in South Africa's total population of 17 million and warned "our army of alcoholics has grown big enough to limit our chance of survival as a young industrial country."

How Can I?

By ANNE ASHLEY

Q. — How can I polish copper?

A. — One effective method consists of pouring a small amount of kitchen cleanser on the metal, then rubbing over this with a slice of lemon until a nice shine appears. Rinse thoroughly.

Q. — How can I make a gelatin dessert quickly when time is at a premium?

A. — Mix the gelatin with only enough hot water to dissolve it, then use ice water for the remaining amount of liquid. The gelatin will set in just a few minutes. Add fruit if you wish, but be sure it is ice-cold.

Q. — How can I clean imitation - leather upholstery?

A. — This will usually clean nicely with mild soap and lukewarm water. Then, to prevent cracking and peeling, follow the washing with a thin coat of petroleum jelly.

Wellsville Post Sets Plans For Nov. 11 Banquet

A Veterans Day banquet was planned for Nov. 11 at 6:30 p.m. when Wellsville American Legion Post 70 met Monday night.

Tickets may be obtained at the post, from Legionnaires or at Johnny's Lunch. Entertainment following the dinner will be provided by the Country Swingers.

Ronnie Gibson, William Grafton and Dale E. Wright were enrolled as new members. Russ Ludwig and the Blue Shades will play for the dance Saturday night beginning at 10. Kenneth Hoover, commander, presided.

Tickets for the Cleveland Browns - Steelers football game at Pittsburgh Nov. 17 are available to the public at the post home, Hoover said.

One Man Wounded Woman Held In Theft

AKRON, Ohio (AP) — One man was hospitalized in serious condition with a gunshot wound and a woman was in custody after a robbery spree by a trio in Akron Tuesday.

A second man is being sought. Police said a bartender at Freddie's Bar on Copley Road shot Ronald Owens in the chest during a holdup attempt.

Two other stores were robbed of $150 in holdups before the attempt at the bar, police said.

Drill Performed For Air Patrol

A color guard performed a special drill at the meeting of the East Liverpool Civil Air Patrol Squadron 307C Monday night at its headquarters on Pennsylvania Ave.

The group consisted of Cadets Ray Hess, John Prokop, Mark Poole, Blair Lockhart and Kris Wilson.

The next meeting will be Monday at 7 p. m. Boys and girls 13-17 interested in the program are invited to attend, Donald S. Poole, commander, said.

Growing Problem

JOHANNESBURG, South Africa (AP) — Alcoholism is a growing problem here, Dr. Louis M. Freed told a symposium on the disease. He estimated there were 370,000 alcoholics in South Africa's total population of 17 million and warned "our army of alcoholics has grown big enough to limit our chance of survival as a young industrial country."

3 Illinois Brothers Cited In Armed Theft

BOWLING GREEN, Ohio (AP) — Three Calumet, Ill., brothers accused of holding up two Toledo area motels were charged with armed robbery in Perrysburg Municipal Court Tuesday.

Robert Jeffries, 35, and brothers Virgil, 33, and Billy, 31, are accused of taking $3,600 from two Holiday Inns early Tuesday before two Wood County deputies stopped their car on a rural road.

How Can I?

By ANNE ASHLEY

Q. — How can I polish copper?

A. — One effective method consists of pouring a small amount of kitchen cleanser on the metal, then rubbing over this with a slice of lemon until a nice shine appears. Rinse thoroughly.

Q. — How can I make a gelatin dessert quickly when time is at a premium?

A. — Mix the gelatin with only enough hot water to dissolve it, then use ice water for the remaining amount of liquid. The gelatin will set in just a few minutes. Add fruit if you wish, but be sure it is ice-cold.

Q. — How can I clean imitation - leather upholstery?

A. — This will usually clean nicely with mild soap and lukewarm water. Then, to prevent cracking and peeling, follow the washing with a thin coat of petroleum jelly.

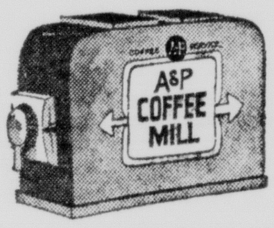
A&P

It isn't easy to buy bean coffee!

Nowadays, very few stores offer you bean coffee.

Why does A&P still offer coffees in the bean?
Basically, because "We Care."
Specifically, because we know these facts:
The coffee bean is nature's seal that holds the flavor.
Once that seal is broken by grinding, flavor fades...
NO MATTER HOW IT'S PACKAGED.
The shorter the time between grinding the beans and brewing your coffee, the greater the flavor.



So if you want the finest cup of "The Think Drink" you've ever tasted, buy and brew one of A&P's three Bean Coffee blends... Eight O'Clock, Red Circle or Bokar.

Not every store can offer you custom-ground bean coffee. A&P can and does.
Shouldn't A&P be your store?

Abolishment Or Revision

Ohio's Garnishment Laws Will Face Attack In 1969

By DON BANDY
Associated Press Writer

COLUMBUS, Ohio (AP)—Legislation will be sought next year to do away with or revise Ohio's garnishments laws, blamed as the main reason for the high number of personal bankruptcies filed in the state.

Leading the attack are the Ohio Manufacturers' Association (OMA) and the Ohio AFL-CIO. Both have complained that credit laws are stacked against the wage earner.

Thomas R. Johnson, executive director of the OMA, says his group will push for legislation from the General Assembly, which convenes in January, to reform the garnishment law.

OMA members, Johnson says, feel they should not "be used as collection agencies for creditors."

Referees in U. S. Bankruptcy Court here agree that garnishment and easy credit laws are mainly responsible for Ohio's high number of bankruptcies.

"There's no question in my mind," says referee John J. Dilenschneider.

Dilenschneider said that for the first time since 1952, bankruptcies have declined in Ohio, but that the state still ranks second in the number of filings.

Federal statistics show that 15,899 personal bankruptcies were filed in Ohio at the end of the fiscal year, June, 1968, while the number at the end of fiscal 1967 was 17,450. California had the highest number of bankruptcies last year, around 38,000, while Illinois was third with 13,700.

These three states account for 36 per cent of the estimated 200,000 bankruptcies filed nationally each year, says Dilenschneider.

By contrast, Pennsylvania, which has no garnishment laws, had 1,200 bankruptcies last year, and New York, whose laws are much more liberal than Ohio's, had 7,000.

Ohio's garnishment laws were liberalized somewhat recently, and Dilenschneider credits this for the small decline in the number of bankruptcies. The law says all but 30 per cent of an employe's weekly wages may be garnished.

Why so many bankruptcy filings in Ohio?

"Easy credit," says bankruptcy court referee Duane J. Kelleher.

"A creditor knows he can have a worker's pay garnished to collect a debt. As a result, the worker, upon learning his wages will be garnished, will file bankruptcy. He's afraid of losing his job."

Many employers will fire a worker rather than go through the trouble of holding out a certain amount of pay from employes' wages. To do this, results in an added cost to the employer.

"Most of those who file bankruptcy want to, and would pay their bills, but when their job is threatened, it's a different thing . . ." Kelleher added.

Both the OMA and the AFL-CIO note that credit-buying has done much to develop the American economy, but that easy credit is too much of a temptation and employes often get themselves in holes that cannot get out of.

Johnson said manufacturers have complained that when prospective creditors call to verify employment and are told that the employe is already having his wages garnisheed, the creditor disclaims any interest, stating all that he needs to know is whether the applicant has a job.

"The bankrupt consumer is punished by more than just an empty pocketbook. He often finds himself and his family degraded and morally beaten," says the AFL-CIO.

Johnson says his association has no quarrel with employes using bankruptcy when they can't pay debts, but is against "a law which encourages creditors, in turn, to encourage debtors to get themselves into these sorry situations, a law which makes bill collectors, from poor credit risks, not only out of our courts but out of the employers."

The OMA, according to results of a questionnaire of its members, has three objectives concerning the garnishment law according to Johnson:

—83 per cent of the OMA members would like to have wage garnishments completely done away with unless the employer specifically agrees to do it.

—70 would have the law repealed, period.

—If neither is done, 82 per cent feel that they should be reimbursed by the creditor for their costs in processing garnishments.

A new Federal law which becomes effective in July, 1970 will prohibit the garnishment of more than 25 per cent of an employe's take home weekly wages or $48 a week, whichever is the lesser. This law will be more restrictive than the Ohio law, and Johnson feels the Ohio law should be changed and that the legislature "should really do a reform job" on the garnishment law.

"We realize," Johnson said, "that to some the availability of credit is a menace."

How Can I?

By Anne Ashley

Q.—How can I make the white collars and cuffs and other white trim on my little girl's dresses sparkling white when laundering them?

A.—By dipping a small toothbrush into bleach solution and rubbing over the white parts before laundering them. This takes only a few minutes, and the results will be well worth the extra work.

Q.—How can I make an easier and better job of cementing wood and metal together with household cement?

A.—If you'll soak the metal pieces first in acetone, being careful not to touch the surface after soaking, your cement will make a good bond.

Q.—How can I remove iodine stains from my hands?

A.—By rubbing with a slice of lemon or a slice of raw potato.

Q. — How can I deal with very stubborn black soot and smoke marks or stains on a brick fireplace?

A. — Try giving the facing an entirely new surface. Use a carborundum block and rub firmly all over the surface of the stained bricks. Then, if the contrast between these newly - cleaned bricks and the rest of the facing is very marked, go over the other bricks lightly to give them all a matching tone.

Q. — Is there something I can do about the removal of small scratches from the glass tops of furniture?

A. — These can sometimes be obliterated by rubbing over them with a little toothpaste, then polishing off with another dry soft cloth.

HINTS FROM HELOISE

Avoiding Home Mishaps

DEAR HELOISE: Because an accident happened today that could happen to any little child, I'd like to share our solution to prevent it from occurring again.

Heloise

Our little grandson had pulled out the bottom drawer in a tall dresser and climbed onto it to reach something on top.

The weight of the open drawer, together with the boy's weight, caused the whole dresser to fall on top of him, pinning him painfully. The mother couldn't lift the dresser off the boy and screamed for help which fortunately came quickly.

So that this kind of accident would never happen again, we got a strong hook and eye and screwed the eye into a studding in the wall about an inch below the top of the dresser. Then screwed the hook into the dresser frame and literally "hung" the dresser to the wall — with all four feet planted firmly on the floor, of course!

GRANDMA S.

-:-

What wonderful advice, Grandma. Thank you muchly.
HELOISE.

DEAR HELOISE: I'd like to share my method of emptying the drip tray when defrosting my refrigerator.

I happen to have an old shampoo spray with hose. After removing the spray head I had a perfect siphon. I just set a bucket on the floor, placed one end of the hose in the tray, sucked on the other end to get the water started and ran it into the bucket.

Sure saved lots of spills.

RUTH BIEBER.

DEAR HELOISE: When filling salt and pepper shakers . . .

Take a paper napkin and crease it half way. Then place it open on the table. Pour salt or pepper onto the napkin, catch each side and tilt it. The salt or pepper will slide right into the shaker without spilling a drop.

S.P.

-:-

Hon, you are right. I've used paper napkins but sometimes they are hard to handle.

I get better results using a three inch square of aluminum foil. I can handle it better 'cause it's kinda rigid and it holds the shape I bend it in.
HELOISE.

DEAR HELOISE: This is for the mothers of young boys.

Don't throw away their pants stretchers when they get in their early teens.

I still use them for those slim cut trousers that all fashionable young men are wearing today. (Unfortunately not all trousers that they purchase are wash 'n' wear).

So, even though they are wearing men's sizes, those small boy's trouser stretchers are the only ones that fit into the narrow legs.

Sure saves lots of ironing.

MRS. R. SCHNIERLEIN

-:-

Ever tried using them for your own slim pants?
HELOISE.

DEAR HELOISE: I use crushed cheese crackers as a topping for my macaroni and creamed casseroles.

You get the cheese flavor without using the cheese. Less expensive, too.

JANE P.

DEAR HELOISE: I have an old-fashioned sink with a strainer-basket stopper. The rubber on this dries up and hardens, allowing the water to seep out gradually. I now have a way to stop it, thanks to a suggestion by my husband.

Take the plastic top off a coffee can. Run enough water into the sink to submerge the basket, then let it start to run out.

While it is running out, place your plastic top, edge down, over the basket. The suction will suck it firmly into place.

NOW fill your sink with the assurance that the water will stay in until you are ready to drain it yourself.

OLD-TIMER.

DEAR HELOISE: When your bottle of window cleaner gets low and the pump won't draw the cleaner out of the bottle, attach a plastic straw to the bottom stem of the pump to lengthen it. Then it will draw out every drop.

50% Greater Than Living Cost

Higher Hospital, Doctor Bills Cited Over 21 Years

WASHINGTON (AP) — Hospital bills have more than tripled and doctors' fees more than doubled in the past 21 years, according to a government report.

The overall rise in medical prices during the period was 50 per cent greater than the general rise in living costs, the Labor Department said today.

And the report had an answer for why few doctors will make house calls any more.

"With an overload of patients, physicians in some cases have tried to discourage the practice of making house calls by raising the rate for such service to a level that few patients are willing to pay," the report said.

The shortage of doctors and other medical personnel was cited as a major factor in the rise in medical costs, coupled with a rise in demand because of medical insurance that has made better care available to millions.

Drug prices have remained relatively stable, according to the report.

The report said that since 1946 hospital room rates have skyrocketed 354 per cent and doctors' fees climbed 107 per cent. All medical costs averaged out to a rise of 125 per cent.

This compared with a rise of 71 per cent over the same period for all living costs measured by the government, including food, housing, clothing, transportation, recreation and medical care.

"The increasing demand for hospital services has forced hospitals to expand both their facilities and their staffs, pushing costs upward," said the report.

But while wage costs account for some 65 per cent of hospital operating costs, it is due more to a vast expansion in the number of workers than to high wages, the report said.

Advanced medical technology, more expensive equipment, and specialization by doctors—all adding up to better medical care—has also been responsible for some of the rapidly rising costs, the report said.

The report noted that doctors' fees rose 7.8 per cnt in 1966, while dentists increased their chages only 4.6 per cent that year.

"One possible reason for the disparity is the fact that few consumers have health insurance covering dental care while over 80 per cent of the population has some kind of coverage for physicians' fees," it said.

Abolishment Or Revision

Ohio's Garnishment Laws Will Face Attack In 1969

By DON BANDY
Associated Press Writer

COLUMBUS, Ohio (AP)—Legislation will be sought next year to do away with or revise Ohio's garnishments laws, blamed as the main reason for the high number of personal bankruptcies filed in the state.

Leading the attack are the Ohio Manufacturers' Association (OMA) and the Ohio AFL-CIO. Both have complained that credit laws are stacked against the wage earner.

Thomas R. Johnson, executive director of the OMA, says his group will push for legislation from the General Assembly, which convenes in January, to reform the garnishment law.

OMA members, Johnson says, feel they should not "be used as collection agencies for creditors."

Referees in U. S. Bankruptcy Court here agree that garnishment and easy credit laws are mainly responsible for Ohio's high number of bankruptcies.

"There's no question in my mind," says referee John J. Dilenschneider.

Dilenschneider said that for the first time since 1952, bankruptcies have declined in Ohio, but that the state still ranks second in the number of filings.

Federal statistics show that 15,899 personal bankruptcies were filed in Ohio at the end of the fiscal year, June, 1968, while the number at the end of fiscal 1967 was 17,450. California had the highest number of bankruptcies last year, around 38,000, while Illinois was third with 13,700.

These three states account for 36 per cent of the estimated 200,000 bankruptcies filed nationally each year, says Dilenschneider.

By contrast, Pennsylvania, which has no garnishment laws, had 1,200 bankruptcies last year, and New York, whose laws are much more liberal than Ohio's, had 7,000.

Ohio's garnishment laws were liberalized somewhat recently, and Dilenschneider credits this for the small decline in the number of bankruptcies. The law says all but 30 per cent of an employe's weekly wages may be garnished.

Why so many bankruptcy filings in Ohio?

"Easy credit," says bankruptcy court referee Duane J. Kelleher.

"A creditor knows he can have a worker's pay garnished to collect a debt. As a result, the worker, upon learning his wages will be garnished, will file bankruptcy. He's afraid of losing his job."

Many employers will fire a worker rather than go through the trouble of holding out a certain amount of pay from employes' wages. To do this, results in an added cost to the employer.

"Most of those who file bankruptcy want to, and would pay their bills, but when their job is threatened, it's a different thing . . ." Kelleher added.

Both the OMA and the AFL-CIO note that credit-buying has done much to develop the American economy, but that easy credit is too much of a temptation and employes often get themselves in holes that cannot get out of.

Johnson said manufacturers have complained that when prospective creditors call to verify employment and are told that the employe is already having his wages garnisheed, the creditor disclaims any interest, stating all that he needs to know is whether the applicant has a job.

"The bankrupt consumer is punished by more than just an empty pocketbook. He often finds himself and his family degraded and morally beaten," says the AFL-CIO.

Johnson says his association has no quarrel with employes using bankruptcy when they can't pay debts, but is against "a law which encourages creditors, in turn, to encourage debtors to get themselves into these sorry situations, a law which makes bill collectors, from poor credit risks, not only out of our courts but out of the employers."

The OMA, according to results of a questionnaire of its members, has three objectives concerning the garnishment law according to Johnson:

—83 per cent of the OMA members would like to have wage garnishments completely done away with unless the employer specifically agrees to do it.

—70 would have the law repealed, period.

—If neither is done, 82 per cent feel that they should be reimbursed by the creditor for their costs in processing garnishments.

A new Federal law which becomes effective in July, 1970 will prohibit the garnishment of more than 25 per cent of an employe's take home weekly wages or $48 a week, whichever is the lesser. This law will be more restrictive than the Ohio law, and Johnson feels the Ohio law should be changed and that the legislature "should really do a reform job" on the garnishment law.

"We realize," Johnson said, "that to some the availability of credit is a menace."

How Can I?

By Anne Ashley

Q.—How can I make the white collars and cuffs and other white trim on my little girl's dresses sparkling white when laundering them?

A.—By dipping a small toothbrush into bleach solution and rubbing over the white parts before laundering them. This takes only a few minutes, and the results will be well worth the extra work.

Q.—How can I make an easier and better job of cementing wood and metal together with household cement?

A.—If you'll soak the metal pieces first in acetone, being careful not to touch the surface after soaking, your cement will make a good bond.

Q.—How can I remove iodine stains from my hands?

A.—By rubbing with a slice of lemon or a slice of raw potato.

Q. — How can I deal with very stubborn black soot and smoke marks or stains on a brick fireplace?

A. — Try giving the facing an entirely new surface. Use a carborundum block and rub firmly all over the surface of the stained bricks. Then, if the contrast between these newly - cleaned bricks and the rest of the facing is very marked, go over the other bricks lightly to give them all a matching tone.

Q. — Is there something I can do about the removal of small scratches from the glass tops of furniture?

A. — These can sometimes be obliterated by rubbing over them with a little toothpaste, then polishing off with another dry soft cloth.

HINTS FROM HELOISE

Avoiding Home Mishaps

DEAR HELOISE: Because an accident happened today that could happen to any little child, I'd like to share our solution to prevent it from occurring again.

Heloise

Our little grandson had pulled out the bottom drawer in a tall dresser and climbed onto it to reach something on top.

The weight of the open drawer, together with the boy's weight, caused the whole dresser to fall on top of him, pinning him painfully. The mother couldn't lift the dresser off the boy and screamed for help which fortunately came quickly.

So that this kind of accident would never happen again, we got a strong hook and eye and screwed the eye into a studding in the wall about an inch below the top of the dresser. Then screwed the hook into the dresser frame and literally "hung" the dresser to the wall — with all four feet planted firmly on the floor, of course!

GRANDMA S.

-:-

What wonderful advice, Grandma. Thank you muchly.
HELOISE.

DEAR HELOISE: I'd like to share my method of emptying the drip tray when defrosting my refrigerator.

I happen to have an old shampoo spray with hose. After removing the spray head I had a perfect siphon. I just set a bucket on the floor, placed one end of the hose in the tray, sucked on the other end to get the water started and ran it into the bucket.

Sure saved lots of spills.

RUTH BIEBER.

DEAR HELOISE: When filling salt and pepper shakers . . .

Take a paper napkin and crease it half way. Then place it open on the table. Pour salt or pepper onto the napkin, catch each side and tilt it. The salt or pepper will slide right into the shaker without spilling a drop.

S.P.

-:-

Hon, you are right. I've used paper napkins but sometimes they are hard to handle.

I get better results using a three inch square of aluminum foil. I can handle it better 'cause it's kinda rigid and it holds the shape I bend it in.
HELOISE.

DEAR HELOISE: This is for the mothers of young boys.

Don't throw away their pants stretchers when they get in their early teens.

I still use them for those slim cut trousers that all fashionable young men are wearing today. (Unfortunately not all trousers that they purchase are wash 'n' wear).

So, even though they are wearing men's sizes, those small boy's trouser stretchers are the only ones that fit into the narrow legs.

Sure saves lots of ironing.

MRS. R. SCHNIERLEIN.

-:-

Ever tried using them for your own slim pants?
HELOISE.

DEAR HELOISE: I use crushed cheese crackers as a topping for my macaroni and creamed casseroles.

You get the cheese flavor without using the cheese. Less expensive, too.

JANE P.

DEAR HELOISE: I have an old-fashioned sink with a strainer-basket stopper. The rubber on this dries up and hardens, allowing the water to seep out gradually. I now have a way to stop it, thanks to a suggestion by my husband.

Take the plastic top off a coffee can. Run enough water into the sink to submerge the basket, then let it start to run out.

While it is running out, place your plastic top, edge down, over the basket. The suction will suck it firmly into place.

NOW fill your sink with the assurance that the water will stay in until you are ready to drain it yourself.

OLD-TIMER.

DEAR HELOISE: When your bottle of window cleaner gets low and the pump won't draw the cleaner out of the bottle, attach a plastic straw to the bottom stem of the pump to lengthen it. Then it will draw out every drop.

50% Greater Than Living Cost

Higher Hospital, Doctor Bills Cited Over 21 Years

WASHINGTON (AP) — Hospital bills have more than tripled and doctors' fees more than doubled in the past 21 years, according to a government report.

The overall rise in medical prices during the period was 50 per cent greater than the general rise in living costs, the Labor Department said today.

And the report had an answer for why few doctors will make house calls any more.

"With an overload of patients, physicians in some cases have tried to discourage the practice of making house calls by raising the rate for such service to a level that few patients are willing to pay," the report said.

The shortage of doctors and other medical personnel was cited as a major factor in the rise in medical costs, coupled with a rise in demand because of medical insurance that has made better care available to millions.

Drug prices have remained relatively stable, according to the report.

The report said that since 1946 hospital room rates have skyrocketed 354 per cent and doctors' fees climbed 107 per cent. All medical costs averaged out to a rise of 125 per cent.

This compared with a rise of 71 per cent over the same period for all living costs measured by the government, including food, housing, clothing, transportation, recreation and medical care.

"The increasing demand for hospital services has forced hospitals to expand both their facilities and their staffs, pushing costs upward," said the report.

But while wage costs account for some 65 per cent of hospital operating costs, it is due more to a vast expansion in the number of workers than to high wages, the report said.

Advanced medical technology, more expensive equipment, and specialization by doctors—all adding up to better medical care—has also been responsible for some of the rapidly rising costs, the report said.

The report noted that doctors' fees rose 7.8 per cnt in 1966, while dentists increased their chages only 4.6 per cent that year.

"One possible reason for the disparity is the fact that few consumers have health insurance covering dental care while over 80 per cent of the population has some kind of coverage for physicians' fees," it said.

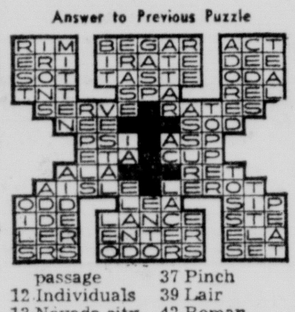
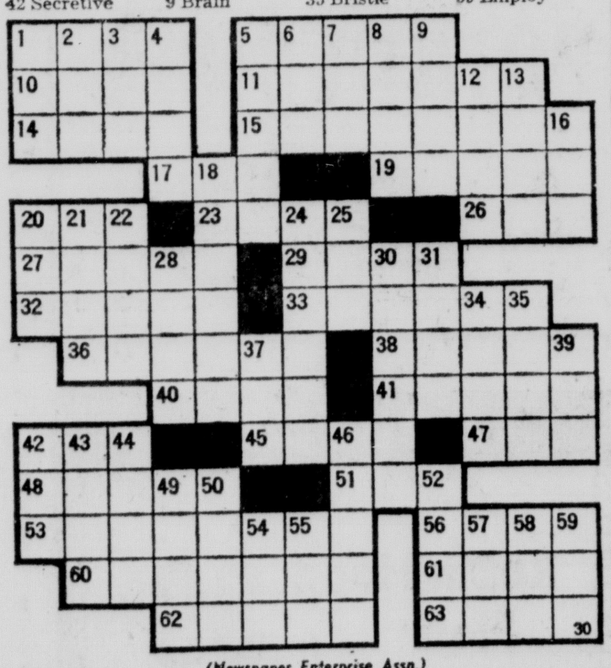
Answer to Previous Puzzle





(Newspaper Enterprise Assn.)

Today In History

By The Associated Press

Today is Wednesday, Oct. 30, the 304th day of 1968. There are 62 days left in the year.

On this date:

In 1735, the second American President, John Adams, was born in Braintree, Mass.

In 1918, an armistice was granted to Turkey at the end of World War I.

In 1938, panic was caused by Orson Welles' radio broadcast depicting an invasion from Mars.

In 1941, the U. S. Navy destroyer, "Reuben James," was sunk by a German submarine off Iceland although the United States was not at war. Repeal of the U. S. Neutrality Act followed.

In 1962, U.N. Secretary General U Thant returned from Havana and said he had been reliably informed that Soviet missles were being dismantled.

Ten years ago . . . all British troops sent to Jordan to help maintain order had been withdrawn after an airlift of the last of the force to Cyprus.

Five years ago . . . Moscow announced that two unmanned Soviet spacecraft had linked up in orbit and remained together 3½ hours.

Junior Editors Quiz on THREADS

QUESTION: *What is thread made of?*

* * *

ANSWER: The Indians used thin roots of pine and spruce trees for thread, but our thread comes from various fibers, which are tiny hair-like structures. Many fibers comes from plants, such as cotton. Others come from the soft lining of the silkworm's cocoon, giving us strong and lustrous silk sewing thread. Some other fibers result from the work of chemists as they make dramatic new materials from water, air and coal, such as nylon. Many seamstresses use thread which goes with the fabric being sewed: cotton thread for cotton, silk thread for silk. Cotton thread goes through many processes before it is wound on a spool. First, the fibers are pulled mechanically off the cotton seeds, then cleaned, also by machine. They are pressed into fluffy blanket rolls (1) carded and straightened to make thick rolls of yarn (2). These are drawn out, the fibers being twisted into strands (3), two or three of which are then twisted tightly together by machine to make thread. Bleached and dried, it is finally rolled onto the spool which you buy.

Today In History

By The Associated Press

Today is Wednesday, Oct. 30, the 304th day of 1968. There are 62 days left in the year.

On this date:

In 1735, the second American President, John Adams, was born in Braintree, Mass.

In 1918, an armistice was granted to Turkey at the end of World War I.

In 1938, panic was caused by Orson Welles' radio broadcast depicting an invasion from Mars.

In 1941, the U. S. Navy destroyer, "Reuben James," was sunk by a German submarine off Iceland although the United States was not at war. Repeal of the U. S. Neutrality Act followed.

In 1962, U.N. Secretary General U Thant returned from Havana and said he had been reliably informed that Soviet missles were being dismantled.

Ten years ago . . . all British troops sent to Jordan to help maintain order had been withdrawn after an airlift of the last of the force to Cyprus.

Five years ago . . . Moscow announced that two unmanned Soviet spacecraft had linked up in orbit and remained together 3½ hours.

Junior Editors Quiz on THREADS

QUESTION: *What is thread made of?*

* * *

ANSWER: The Indians used thin roots of pine and spruce trees for thread, but our thread comes from various fibers, which are tiny hair-like structures. Many fibers comes from plants, such as cotton. Others come from the soft lining of the silkworm's cocoon, giving us strong and lustrous silk sewing thread. Some other fibers result from the work of chemists as they make dramatic new materials from water, air and coal, such as nylon. Many seamstresses use thread which goes with the fabric being sewed: cotton thread for cotton, silk thread for silk. Cotton thread goes through many processes before it is wound on a spool. First, the fibers are pulled mechanically off the cotton seeds, then cleaned, also by machine. They are pressed into fluffy blanket rolls (1) carded and straightened to make thick rolls of yarn (2). These are drawn out, the fibers being twisted into strands (3), two or three of which are then twisted tightly together by machine to make thread. Bleached and dried, it is finally rolled onto the spool which you buy.
